

REGION VII

18th Regional Congress of Barangay Nutrition Scholar

BNS: *Serbisyong pangnutrisyon.
ipadayon sa bag-ong
panahon!*

03-04 November 2022
Mandaue Sports Complex, Mandaue City

REGION VII

Rationale and Objectives

Ms. Hazel H. Manongas

President, Mandaue City BNS Association

REGION VII

General Objectives

The regional congress aims to enable BNSs to improve the nutrition well-being of their communities thru application of core nutrition strategies identified in the Philippine Plan of Action for Nutrition 2023-2028.

Specific Objectives

REGION VII

1. State the roles of BNS in the new PPAN.

2. Express ways to deliver nutrition interventions in an epidemic situation.

3. Review the elements of the Barangay Nutrition Action Plan

4. Illustrate a food secure barangay.

8. Discuss organizational concerns and updates regarding the Regional BNS Federation.

7. Recognize nominees for Regional Outstanding BNS.

6. Enumerate the pillars of maintaining a healthy lifestyle.

5. Discuss the phases in managing a barangay nutrition program.

REGION VII

Session 1:

The Philippine Plan of Action for Nutrition 2023-2028 and the Role of BNS

Ms. Nasudi G. Soluta, RND

Nutrition Officer III
National Nutrition Council Region VI

The Philippine Plan of Action for Nutrition 2023-2028 and the Role of the BNS

**NASUDI G. SOLUTA, RND
NO III, NNC 7**

Outline

THE STATE OF NUTRITION

GOALS AND TARGETS

STRATEGIES AND INTERVENTIONS

THE BNS AND PPAN IMPLEMENTATION

The State of Nutrition

The triple burden of malnutrition in the PHILIPPINES

Causes of all forms of malnutrition:

- Poverty and inequality
- Social cultural factors
- Poor water quality
- Poor sanitation and hygiene
- Maternal nutrition
- Poor diets

01 Undernutrition

In the Philippines,
3.4 million under 5 children are stunted,
685,000 under 5 are wasted

In the Philippines

17%
of children
have a
micronutrient
deficiency

1.8 million
children under 5
are micronutrient
deficient

10%
of women
of reproductive
age are anemic

02 Micronutrient deficiencies

Triple Burden

03 Overweight & Obesity

350,000
children under 5 are
overweight or obese

3.3 million
school children
and adolescents
are overweight

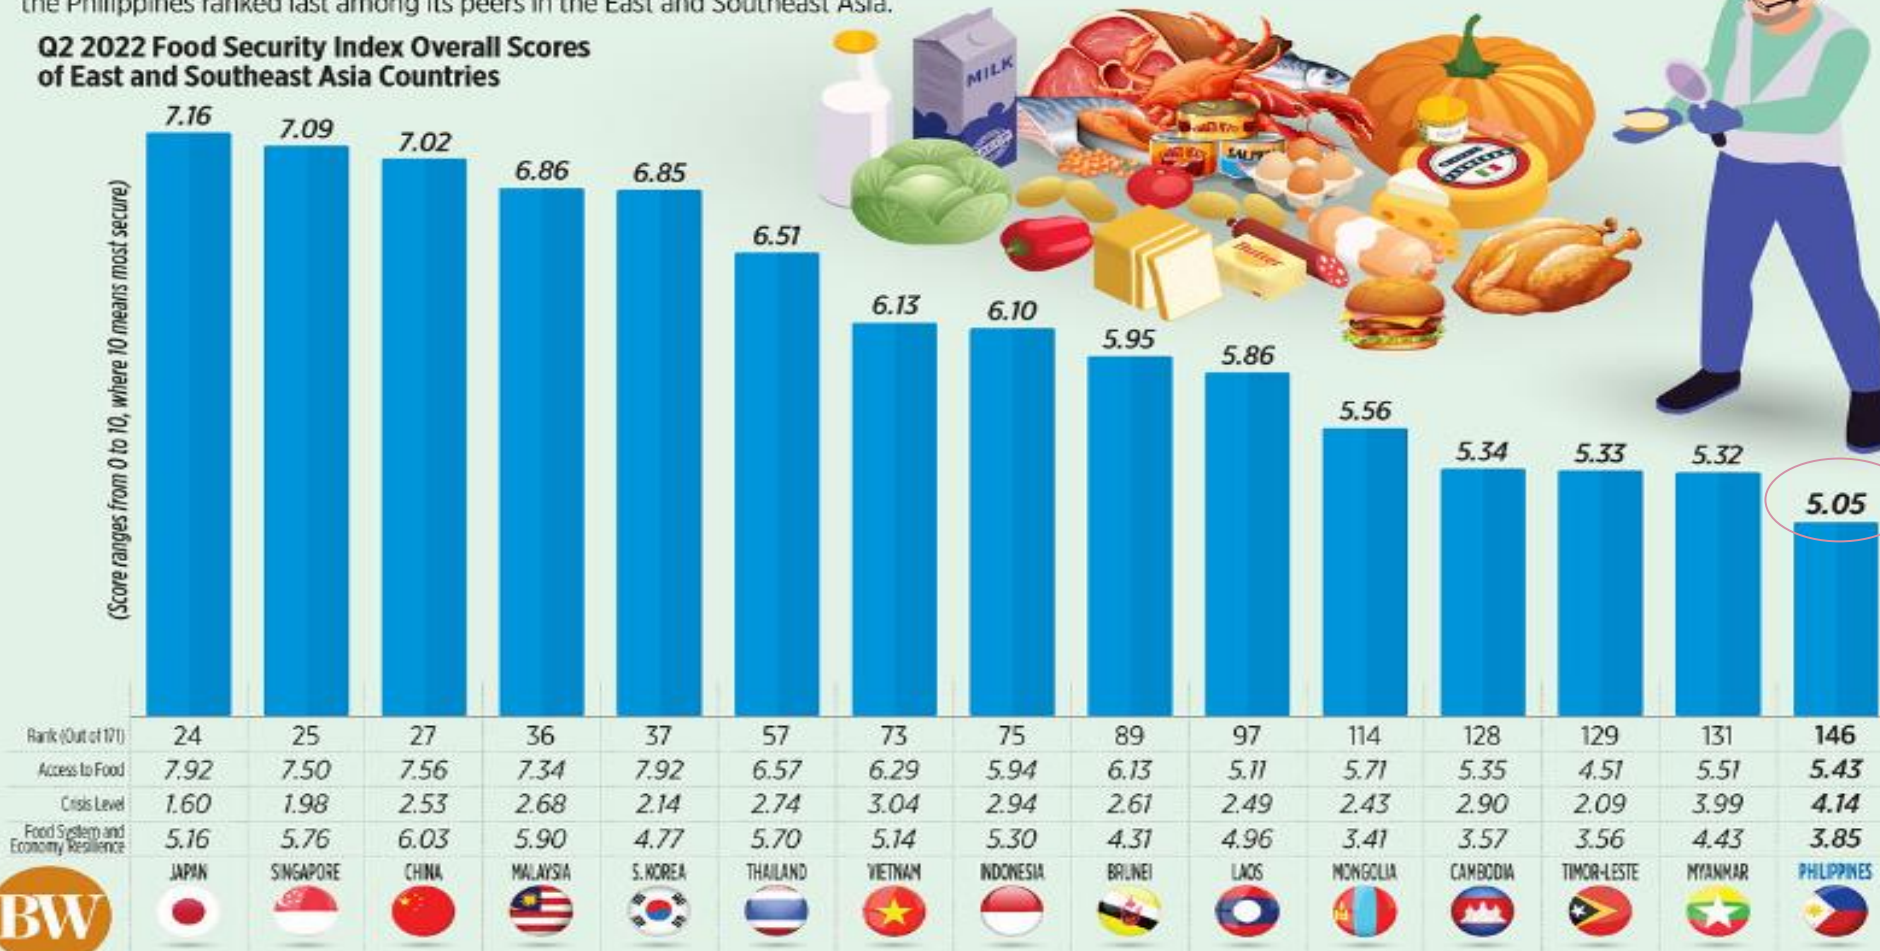

Philippine food security index score: 5.05/10

PHILIPPINES MOST FOOD INSECURE IN EAST AND SOUTHEAST ASIA

The Philippines placed 146th out of 171 countries in the Global Food Security Index Q2 2022 developed by consultancy agency Deep Knowledge Analytics. The index was constructed from 40 food security indicators divided into three main dimensions: food accessibility; crisis level; and food system and economy resilience. With an overall food security index score of 5.05 out of the possible 10, the Philippines ranked last among its peers in the East and Southeast Asia.

Q2 2022 Food Security Index Overall Scores of East and Southeast Asia Countries

Top 10

Rank (Out of 171)	Country	Overall Score (Out of 10)
1	United States	7.90
2	Norway	7.89
3	Ireland	7.82
4	Netherlands	7.79
5	Canada	7.79
6	Germany	7.75
7	France	7.54
8	New Zealand	7.52
9	Poland	7.50
10	Finland	7.49

Bottom 10

Rank (Out of 171)	Country	Overall Score (Out of 10)
171	Somalia	2.97
170	Dem. Rep. of the Congo	3.75
169	Mozambique	3.76
168	Central African Republic	3.79
167	Afghanistan	3.79
166	Burkina Faso	4.05
165	Nigeria	4.11
164	South Sudan	4.15
163	Niger	4.24
162	Chad	4.28

NOTES:

- The index identifies countries at risk for humanitarian emergencies and disasters that could overwhelm current national response capacity and therefore lead to a need for international assistance. It covers three main dimensions:

Access to Food - measures ease of access to sufficient and nutritious food that meets people's dietary needs for a healthy and active life.

Crisis Level - assesses a country's exposure to the impacts of a changing climate, sociological or biological hazards.

Food System and Economy Resilience - evaluates resources available that can alleviate the impact of global food crisis.

- According to the report, the global food system has been destabilized by the recent Russian invasion of Ukraine, and levels of hunger and existing acute food insecurity are expected to increase even further by the end of 2022.

- The report is based on data collected until July 1, 2022.

BUSINESSWORLD GRAPHICS: BONG R. FORTIN

STUNTING: A SILENT PANDEMIC

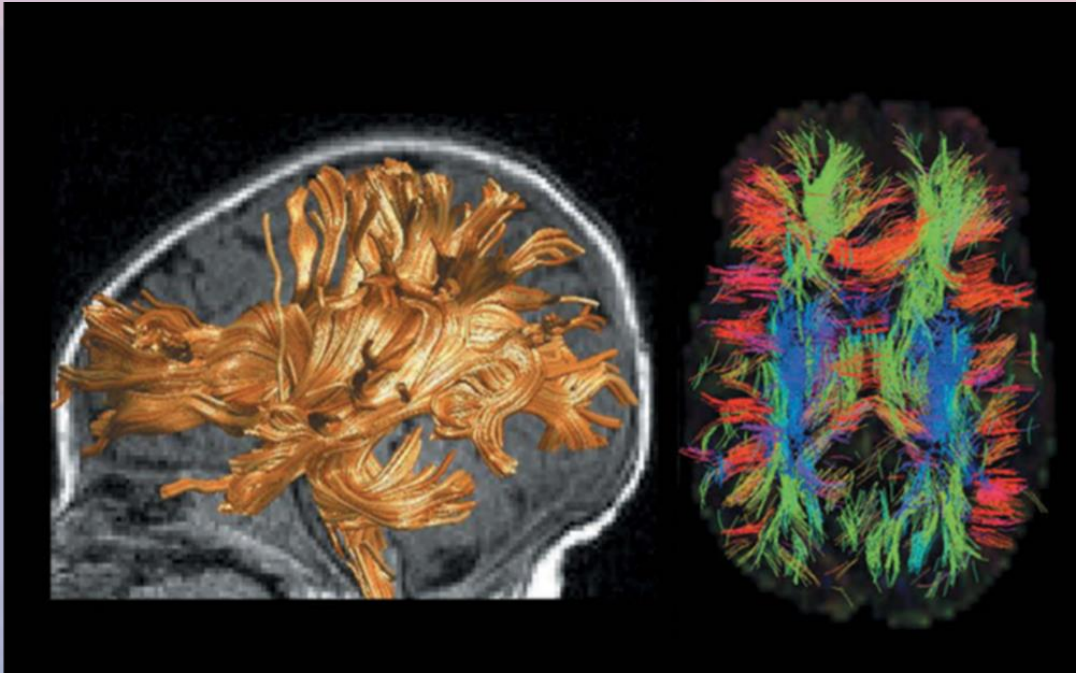

Stunting is the most serious of malnutrition

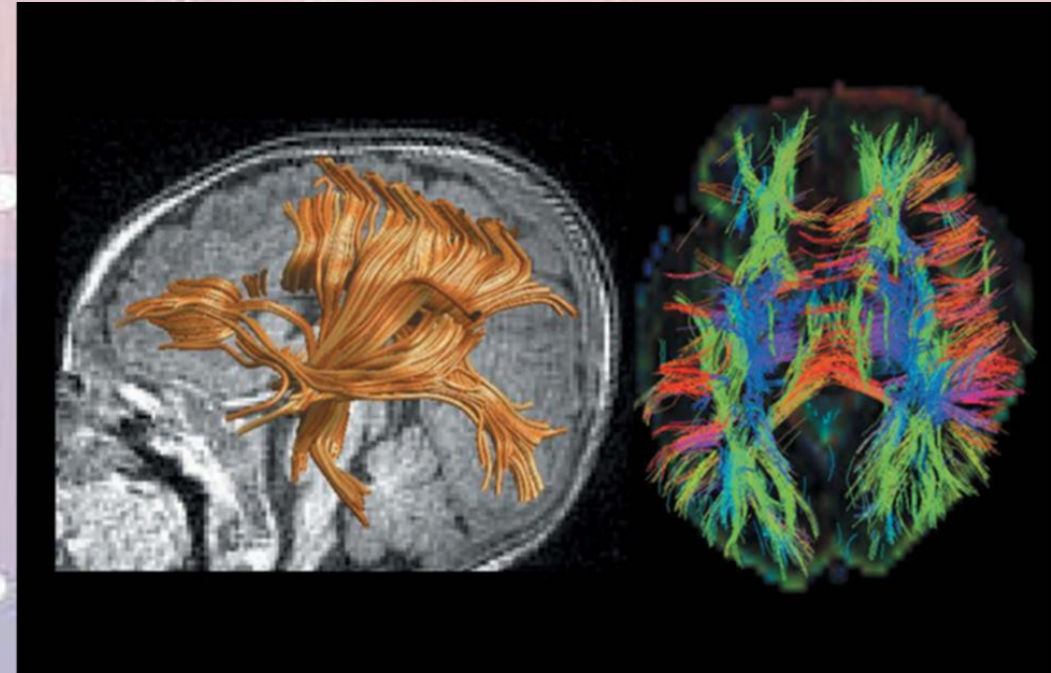

An irreversible outcome of inadequate nutrition and repeated bouts of infection in the First 1000 Days

1 in 3 Filipino children is stunted

Negative impact of stunting in the brain development

HEALTHY GROWTH

STUNTED GROWTH

A stunted child has poorly developed brain connections
vs. to those of a healthy child

CONSEQUENCES OF STUNTING

Reduced learning capacity

More prone to Non-Communicable Diseases (NCDs)

Lesser income by 20%

Loss in economic productivity

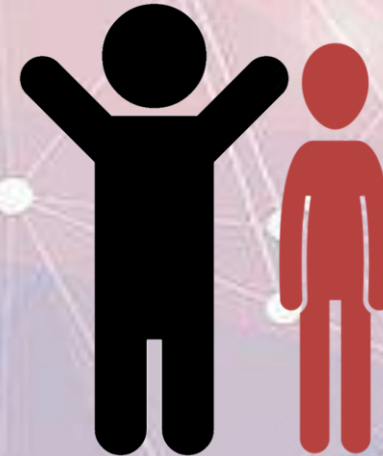

Central Visayas Nutrition Situation

**Stunted
(Pagkaputot)**

Implications and Recommendations.

Direct efforts to address chronic malnutrition or stunting as it affects 72,179 children.

With the significant increase of overweight (from 2.7% to 3.1%), actions have to be put in place to arrest the situation.

Prioritize areas with high prevalence in almost all indicators: Catmon *3, Mabinay *3, Guihulngan City *2, San Jose *2

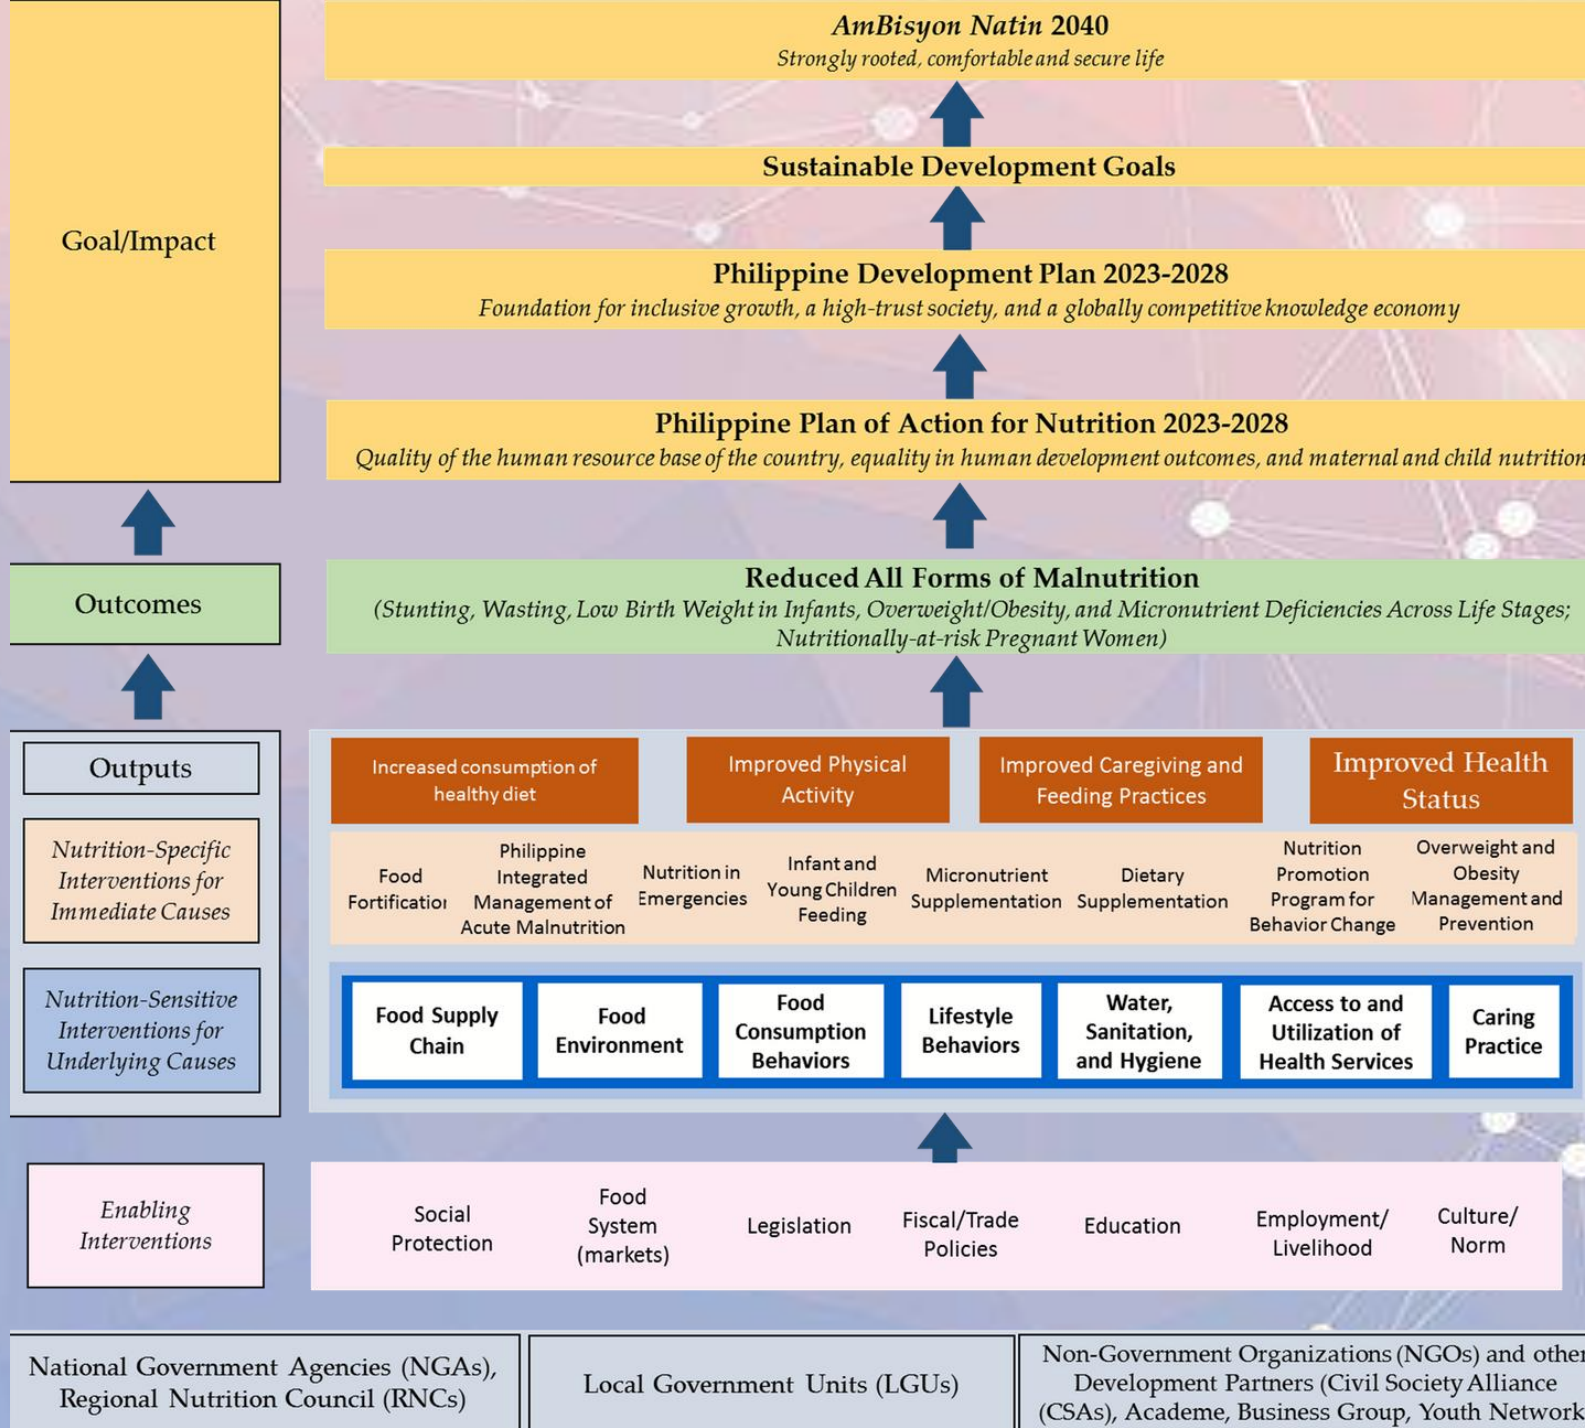

- *No of indicators

Goals and Targets

PPAN 2023 - 2028 STRATEGIC FRAMEWORK

GOALS

Achieving Ambisyon Natin 2040 by improving the quality of human resources in the country.

Reducing inequality in human development outcomes

Reducing child and maternal mortality

TARGETS

Reduce Undernutrition

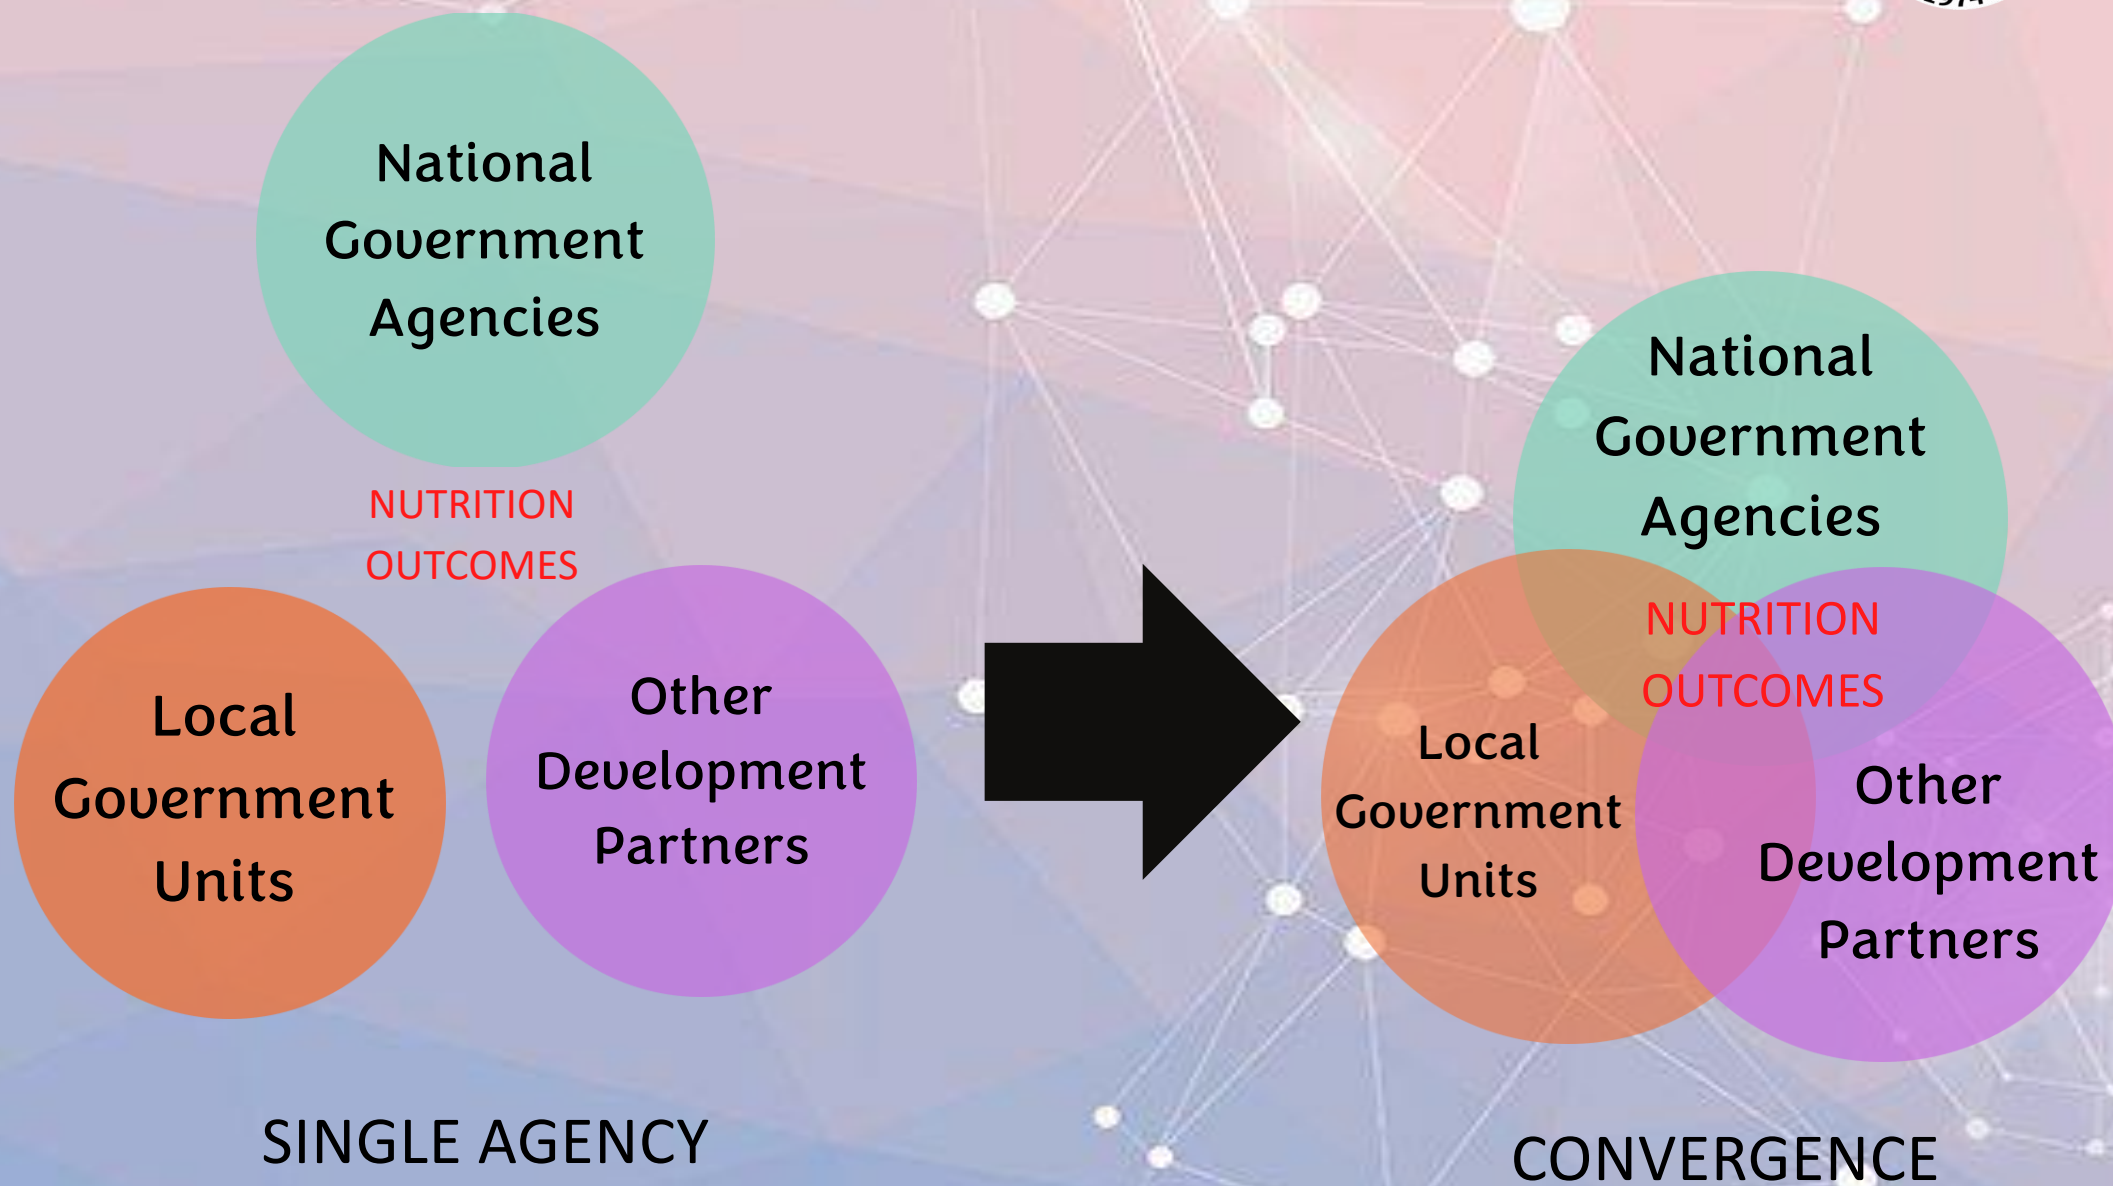

Reduce Overnutrition

Reduce Micronutrient Deficiencies

Reduce Inadequate Infant and Young Child Feeding Practices

Reduce Food Insecurity

Convergence of Actions for Nutrition

Strategies and Interventions

PROPOSED PPAN

STRATEGIES ON NUTRITION

1. NUTRITION ACROSS THE LIFE COURSE WITH A FOCUS ON THE FIRST 1000 DAYS OF LIFE.

2. NUTRITION FOR OLDER ADULTS

3. COMPLEMENTATION AND CONVERGENCE OF NUTRITION-SPECIFIC AND NUTRITION-SENSITIVE PROGRAMS

4. STRENGTHENING OF THE GOVERNANCE STRUCTURES FOR NUTRITION.

5. CALIBRATING SUPPORT TO LGUS BASED ON NEED AND CAPACITY

6. REACHING AREAS WITH HIGH POVERTY INCIDENCE AND GIDA.

7. INCREASING ACCESS AND CONSUMPTION OF HEALTHY AND DIVERSIFIED DIETS.

Adolescents (> 10-19 years old) 	Apparently healthy & In need of Treatment and management <ul style="list-style-type: none"> - Nutrition Counseling - Adolescent health and preconception nutrition 	<ul style="list-style-type: none"> – Healthy and family planning services – Classroom education and Alternative Learning Modules – Adolescent programs (e.g., establishment of teen centers) – Mental health programs
Adults (20-59 years old) 	Apparently healthy <ul style="list-style-type: none"> - Nutrition counseling In need of Treatment and management <ul style="list-style-type: none"> – Nutrition counseling – Nutrition support to CED (e.g., iron supplement to WRA, food assistance) – Disease prevention and management 	<ul style="list-style-type: none"> – Livelihood – Gender and Development – Healthy and family planning services (WRA) – social safety nets – Alternative Learning Modules

INTERVENTIONS

Life Stage	Program/Services	
	Nutrition-specific	Nutrition-sensitive
Older Adults (60 years old and above) 	Apparently healthy & In need of Treatment and management <ul style="list-style-type: none"> - Nutrition support for older adults - Nutrition counseling 	– Socioeconomic programs for older adults
All population groups (families, individuals) 	Apparently healthy & In need of Treatment and management <ul style="list-style-type: none"> – Nutrition counseling/education – Individual nutrition assessment – Nutrition SBCC – Physical activity – Weight management – Food Fortification – Nutrition in emergencies 	– Water, Sanitation and Hygiene (WASH) – Agriculture and food security – Mental health

The BNS and PPAN Implementation

Nutrition Action Plans at Different Administrative Levels

**PHILIPPINE PLAN OF ACTION FOR
NUTRITION (PPAN)**

**REGIONAL PLAN OF ACTION FOR
NUTRITION (RPAN)**

**PROVINCIAL NUTRITION ACTION PLAN
(PNAP)**

**CITY/MUNICIPAL NUTRITION ACTION
PLAN (CNAP/MNAP)**

**BARANGAY NUTRITION ACTION PLAN
(BNAP)**

Roles of BNSs in PPAN Implementation

Planning

- Initiates and assists the BNC in the formulation of the BNAP
- Ensure prioritization of the programs in the BNAP

Coordination

- Initiate BNC meetings
- Coordinates BNC involvement in BNAP implementation

Advocacy

- Promotes and advocates nutrition programs

Basic Roles of BNSs

Implementation

- Ensures the implementation of planned programs, projects, and activities

Monitoring and Evaluation

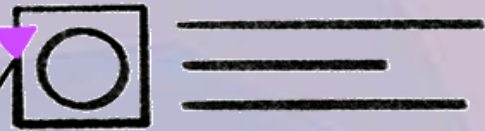

- Monitors nutritional status of the community
- Follow-up beneficiaries

Resource Mobilization/Generation

- Mobilizes and generates human and financial resources in coordination with the BNC

Actions Points for BNSs

Ensure adoption of the PPAN
2023–2028 Strategies in the
2023–2025 BNAP

Coordinate and Mobilize
Nutrition Committee for BNAP
Implementation

Prepare documentation reports

- ❖ *Served as Barangay Nutrition Scholar for 19 years.*

REGION VII

Session 2:

Delivery of nutrition interventions from pandemic to epidemic paradigm

Ms. Juanita R. Hinay

President, Tagbilaran City BNS Association
2021 Regional Outstanding BNS

RULES AND FUNCTION OF BNS IN THE COMMUNITY

- **PRESENTED BY: JUANITA HINAY**

- PD No. 1569 known as **“Strengthening The Barangay Nutrition Program By Providing A Barangay Nutrition Scholar In Every Barangay”**.
- Passed on June 11, 1978.
- Seeks to provide additional human resources for the implementation of programs, projects and activities.
- Requiring at least one BNS per barangay.
- Aimed to address malnutrition.

WHAT IS A BNS?

SECTION 2 of P.D. 1569 defines a Barangay Nutrition Scholar

SECTION 2 of P.D. 1569 defines a Barangay Nutrition Scholar As follows:

- **“The barangay Nutrition Scholar shall be a barangay-based volunteer worker responsible for delivering nutrition services and other related activities such as community health, backyard food production, environmental sanitation, culture, mental feeding, and family planning to the barangay**

As a Volunteer

- You deliver nutrition and related services to the community without salary.

VOLUNTEER

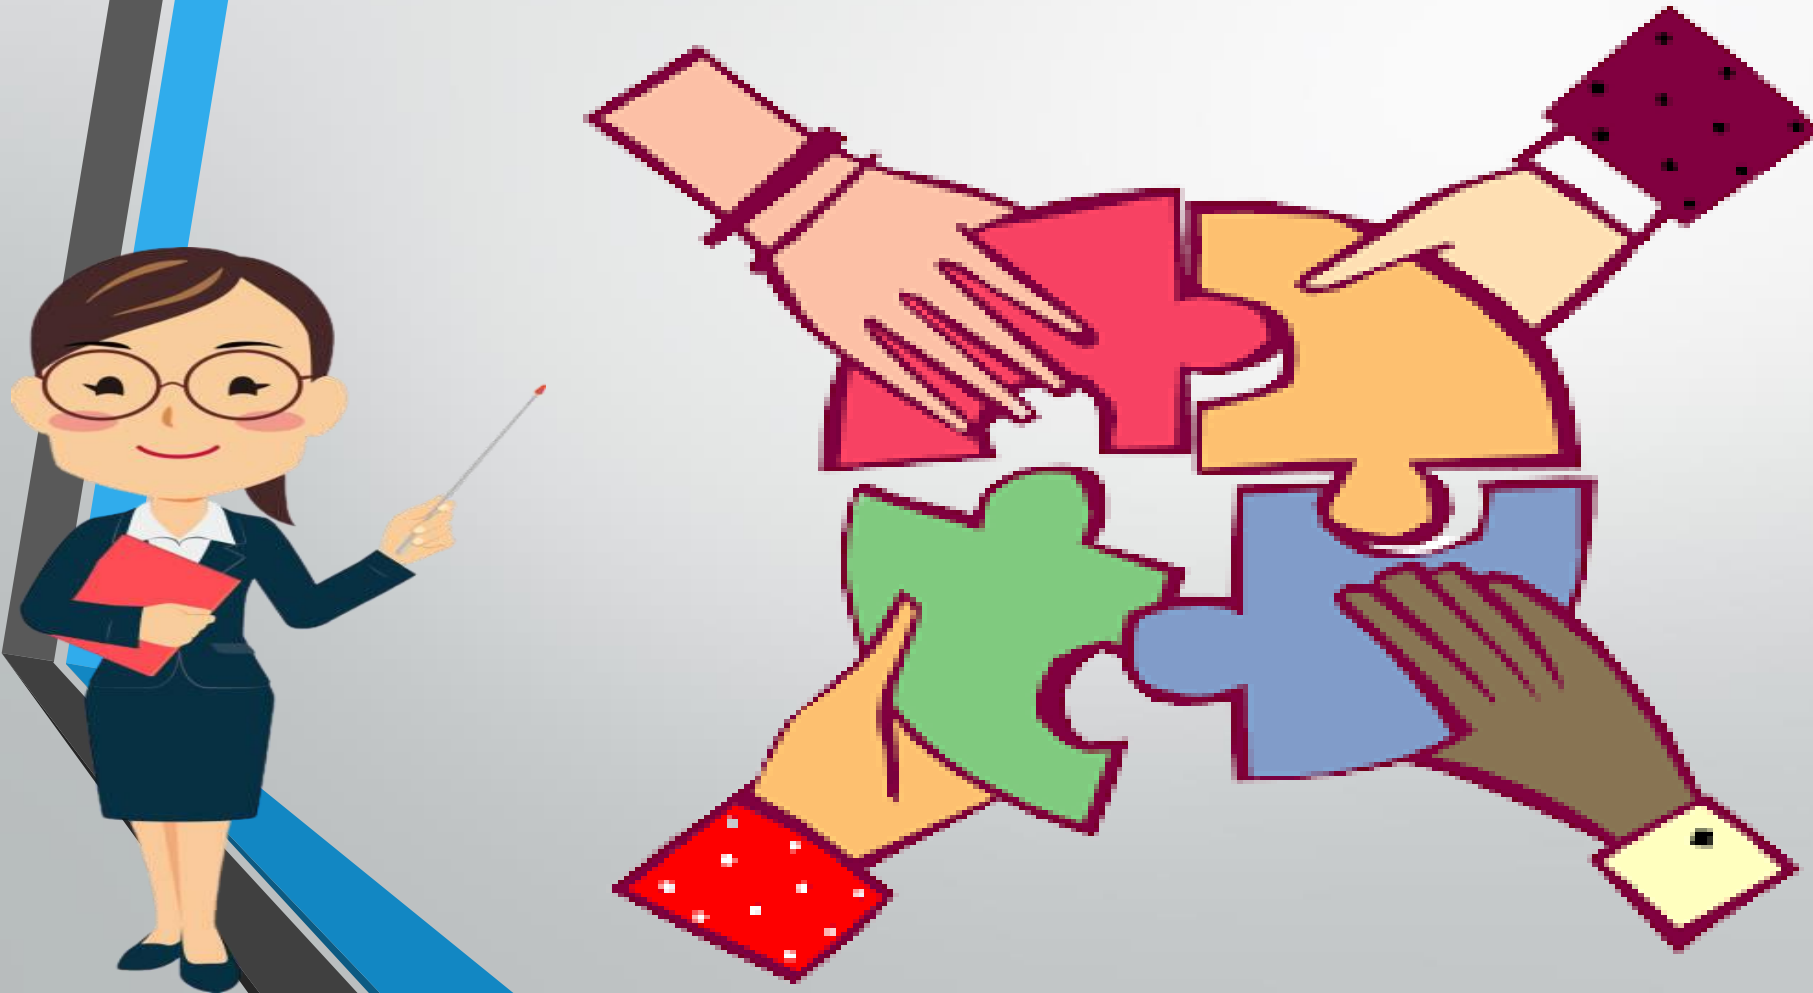

As a Scholar

- You have to continuously upgrade your knowledge and skills in order to perform community nutrition work.

ROLE OF BNS IN THE COMMUNITY

PLANNING

- The BNS are involved in planning of programs, projects and activities that will be implemented in our respective barangay

- **Assist the Barangay Chairperson in organizing or reactivating the BNC**
- **Initiates and assist the BNC in the formulation of the barangay nutrition action plan**

PLANNING

COORDINATION

- BNS are responsible for coordinating with the BNC and C/MNAO / BNAO
- Coordinates meeting of the BNC and submits minutes of the meeting
- Facilitates nutrition related meetings
- Coordinates implementation of nutrition activities
- Refers clients to appropriate service providers

BNC MEETING

ADVOCACY AND PROMOTION

- As BNS, it is our responsibility to promotes and advocates nutrition program

IMPLEMENTATION

- The BNS are the focal person in making sure that the planned activities are implemented
- Counsel mothers / father / caregivers of the children whose weight have decreased or whose children have not gained weight / height and also visit beneficiaries who fail to attend growth monitoring sessions.
- Counsel mother / fathers / caregivers to promote positive nutrition behaviors

IMPLEMENTATION

- monitors weight and height of all children 0-59 months old together with the barangay health workers, under the supervision of the midwife.

IMPLEMENTATION

- **Provides basic nutrition and health information and acts as focal person in the referral of clients to services and in the promotion and advocacy of optimal infant and young child feeding practices.**

IMPLEMENTATION

- Refers sick and underweight children to health center, clinics or hospitals through the midwife.
- Refers eligible targets to feeding program.
- Distributes or sells food as part of income generating projects
- Distributes available vitamins / mineral supplements
- Conducts or assists in conducting systematic nutrition and health education classes to mothers, especially the pregnant and lactating women.

IMPLEMENTATION

- Promotes the construction, proper and continued use of sanitary toilet, giving priority to household with pre-school children.
- Distributes available vegetable seeds and seedling to target families

The BNS may also initiate the development and implementation of innovative project and activities

MONITORING AND EVALUATION

- **Part of your duty is to find out whether the planned activities were implemented.**
- **The objectives set were fulfilled and if the program goals and targets were met.**

MONITORING AND EVALUATION

- **Monitors nutritional status of pre school children**
- **Informs, monitors and conducts follow –up visits to mother / caregivers / parents of beneficiaries and resource persons to attend the nutrition activities**

MONITORING AND EVALUATION

- **Monitors and implements the revised rules and regulations of nutrition related national laws and policies ASIN Law, Food Fortification, Milk Code E.O.51 and R.A. 10028.**
- **Provides feedback updates to the BNC, CNAO, MNAO, and D/CNPC.**

RESOURCE MOBILIZATION / GENERATION

- Mobilizes and generates human and financial resources in coordination of the BNC

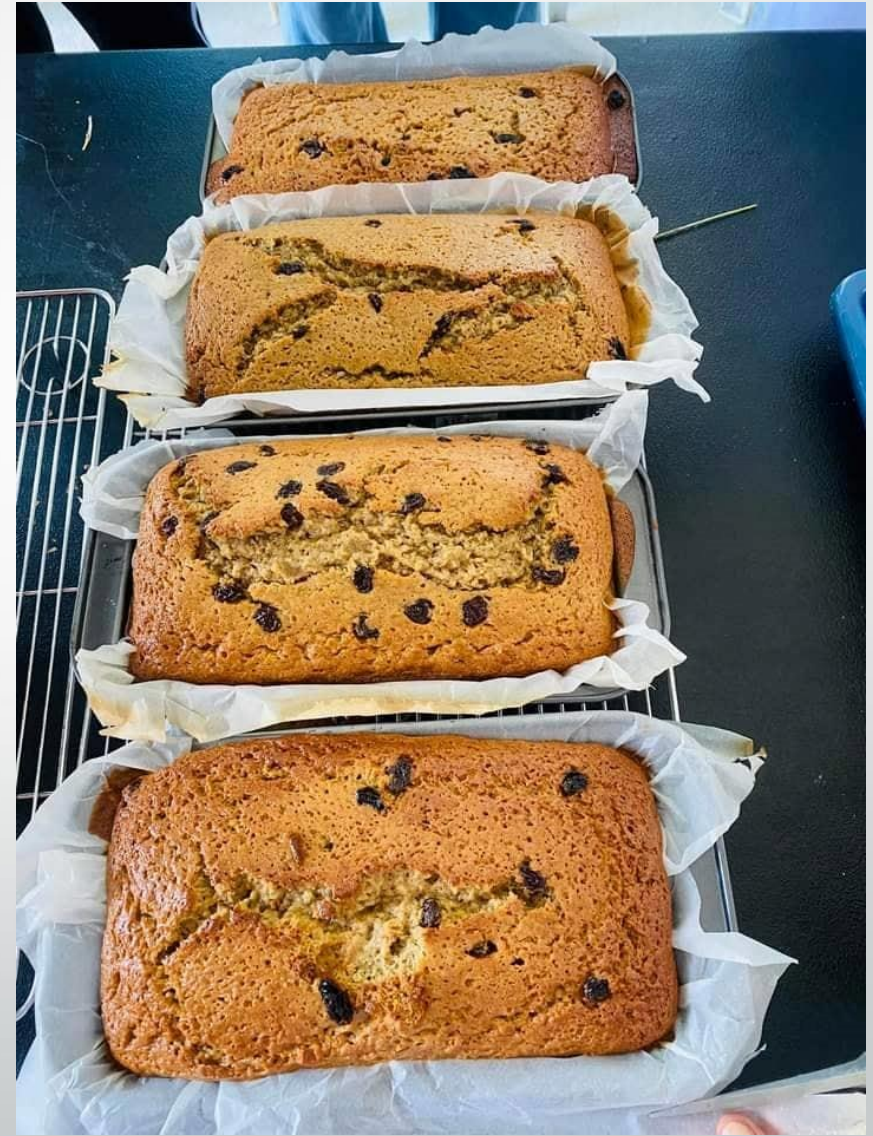

DOCUMENTATION AND RECORD KEEPING

- Plans, activities, problem and solutions discussed in a meeting should be documented by written reports and photos.
- Prepares minutes or highlights of meeting dutifully and promptly prepares brief write ups and diaries and photos of important activities

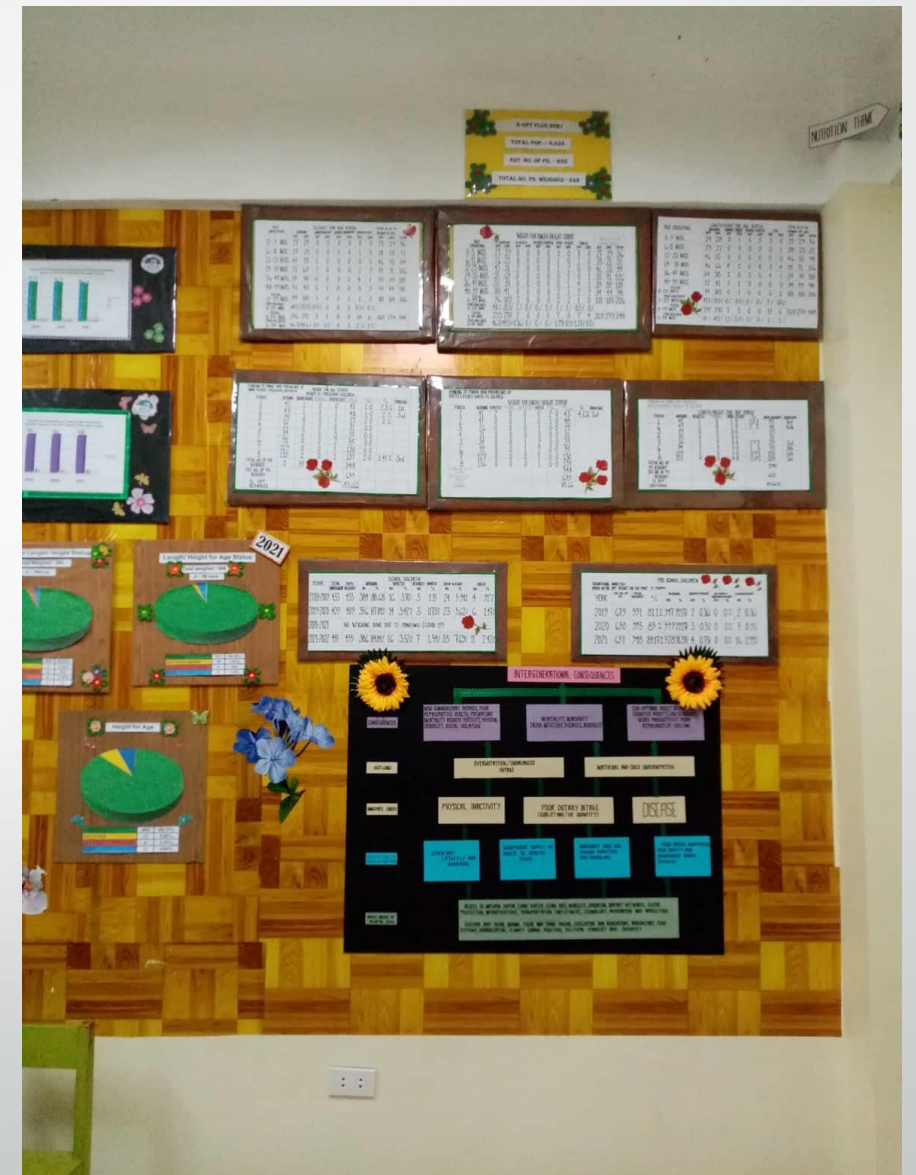

BARANGAY NUTRITION SCHOLAR

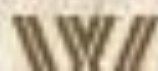

- Requires a strong commitment, good understanding and clear acknowledgement of a shared responsibility to address the alarming nutrition situation.
- As several factors are needed to be addressed, it also requires effective coordination across local government, including the health, agriculture, social welfare and development and education sector, in addition of the development partners and the country's private sector.

IN SUMMARY

- **BNS should care for the malnourished, mobilized the community and linkage building activity.**
- **Today we learn thru listening, writing the updates, visioning the future and most importantly, let's enjoy this activity.**

The image features a black background with golden palm fronds in the top-left and bottom-right corners. The text "thank you" is written in a golden, cursive script in the center. Small white and gold confetti is scattered across the background.

thank
you

Managing the Barangay Nutrition Program

Ms. Juvelyn A. Quiño

City Nutrition Scholar, Brgy. Budlaan, Cebu City

Management of Nutrition Program in the Barangay Level

Barangay Budlaan, Cebu City

Why Nutrition Program Management is important in the Barangay?

Nutrition Program Management is a process of:

- ▶ Knowing the potential or current problems and nutritional needs of the specific group.
- ▶ Studies the measures on how to prevent malnutrition.

Why Nutrition Program Management is important in the Barangay?

Nutrition Program Management is a process of:

- ▶ Allocation of resources and voluntary implementation of nutrition interventions to address malnutrition.
- ▶ Monitor and evaluate various nutrition programs.

What are the roles of BNC in Nutrition Program Management ?

- ▶ Study and analyze the nutritional status of the barangay.
- ▶ Create and allocate appropriate budget for BNAP.
- ▶ Management of nutrition programs in the barangay.

What are the roles of BNC in Nutrition Program Management ?

- ▶ Organizing or establishing support groups that will implement nutrition programs in the barangay.
- ▶ Monitoring and evaluation of implemented nutrition programs.
- ▶ Conducting regular meetings to ensure correct and effective implementation nutrition programs.
