Feeding Recommendations for a Healthy Child

Birth to 6 months

Exclusively breastfeed as often as the child wants, day and night, at least 8 times in 24 hours. Do not give other foods or fluids including water.

Six (6) months up to 12 months

Breastfeed as often as the child wants. In addition to frequent breastfeeding, give the child who is:

- 6 months old, 2-3 tablespoons of thick porridge with well mashed foods 2x / day
- 7-8 months old, 2/3 cup* of mashed family foods, 3x / day
- = 9-11 months old, 3/4 cup finely chopped or mashed family foods in 3 meals + 1 snack

welve (12) months up to 2 years

Breastfeed as often as the child wants. In addition to frequent breastfeeding, give the child a cupful of family foods, chopped or mashed in 3 meals + 2 snacks

Food may include animal source such as meat, fish, eggs and fruits and vegetables such as banana, orange, papaya, carrots, squash, beans and nuts.

years and older

Breastfeeding for 2 years of age or longer helps a child grow strong and healthy. A growing child needs 3 meals and 2 snacks. Give a variety of foods everyday. Reference: WHO Module on Infant and Young Child Feeding

VISIT NOTES			
Date	Age Today	Reason for Visit	Type of Treatment / Service Provided
