NPM

Progress: 0 / 1

MODULE 1: Understanding Food and Nutrition Progress: 0 / 1

MODULE 2: Advancing Core Values and Skills of Nutrition

Workers

MODULE 3: Integrating NPM in the Local Governance and **Development System**

MODULE 1: Understanding Food and Nutrition

Basic knowledge on food and nutrition is important to you as a nutrition worker in addressing the problems of malnutrition. This will help you understand what malnutrition is, its causes, and consequences.

Module 1 presents the key concepts and principles on basic food and nutrition that you need to know and understand by heart. It also discusses food and nutrition security and the importance of ensuring good nutrition in all phases of the life cycle. As the social capital of any country, citizens must be fed the right food to have a healthy and vibrant nation.

After completing this module, you are expected to understand the basic concepts of food and nutrition. It is also hoped that you can find ways to address the problem of malnutrition through nutrition program management.

The activities for Module 1 are as follows:
