**DEPARTMENT OF THE INTERIOR AND LOCAL GOVERNMENT  
DEPARTMENT OF HEALTH**

OCT 21 2019

**GUIDELINES ON THE INTEGRATION OF SPECIFIC PROGRAMS, PROJECTS AND  
ACTIVITIES (PPAS) FROM THE PHILIPPINE PLAN OF ACTION FOR NUTRITION  
(PPAN) 2017-2022 TO THE LOCAL DEVELOPMENT PLANS, INVESTMENT  
PROGRAMS AND BUDGET OF LOCAL GOVERNMENT UNITS**

Joint Memorandum Circular No. 2019-0001

**I. BACKGROUND**

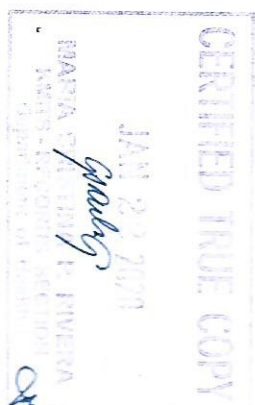

The Philippine Plan of Action for Nutrition (PPAN) 2017-2022 is the country's policy framework for action for nutrition improvement. It is an integral part of the Philippine Development Plan 2017-2022. It was formulated to address the alarming state of malnutrition in this country and is consistent with the Duterte Administration 10-point Economic Agenda, the Health for All Agenda of the Department of Health (DOH), and the development pillars of *malasakit* (protective concern), *pagbabago* (change or transformation), and *kaunlaran* (development), and the vision of *Ambisyon 2040*. It aims to significantly reduce the prevalence of stunting, wasting, micronutrient deficiencies and to halt any further increase in overweight and obesity with a special focus on critical package of interventions during the First 1,000 Days of Life (Attachment 1). It factors in and considers country commitments to the global community as embodied in the 2030 Sustainable Development Goals, and the 2025 Global Targets for Maternal, Infant and Young Child Nutrition.

The PPAN was formulated under the leadership of the National Nutrition Council (NNC), which serves as the coordinating body for the implementation of nutrition-related programs and projects and has responsibility for monitoring and evaluation.

In support of the PPAN, the DILG issued Memorandum Circular 2018-42 (MC 2018-42) dated 26 March 2018 on the *Adoption and Implementation of the Philippine Plan of Action for Nutrition (PPAN) 2017-2022* to provide guidelines on the roles and responsibilities of DILG Field Offices and local government units (LGUs) in the implementation of PPAN 2017-2022. Among others, MC 2018-42 enjoins LGUs to formulate their local nutrition action plans (LNAPs) and include in their Local Development Plans and Annual Investment Programs (AIP) applicable PPAN programs to ensure adequate funding for nutritional impact.

To complement the DILG MC, the Department of Budget and Management (DBM) issued National Budget Memorandum No. 130 dated 13 April 2018: *Budget Priorities Framework for the Preparation of the FY 2019 Budget Proposals under Tier 2*, to guide departments and agencies in the crafting of their Tier 2 budget proposals through the identification of strategies and programs preferred for funding, and particularly, to intensify quality nutrition through the implementation of PPAN 2017-2022.

Corollary to the DILG MC 2018-42, the DBM issued Local Budget Memorandum (LBM) No. 77 dated 15 May 2018: *FY 2019 Internal Revenue Allotment and Guidelines on the Preparation of the*

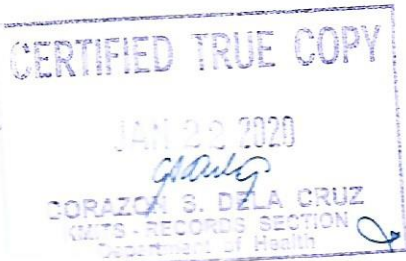

*FY 2019 Budgets of Local Government Units to prescribe guidelines in the preparation of the FY 2019 budgets of LGUs, and identify priorities in the use of the IRA and other local resources. LBM no. 77 stipulates that '[i]n accordance with DILG Memorandum Circular No. 2018-42 dated March 26, 2018, all LGUs are hereby enjoined to prioritize in the allocation of local funds the PPAs included in their respective local nutrition action plans, which should have been formulated in accordance with the Philippine Plan of Action for Nutrition 2017-2022. To supplement LBM No. 77, DBM also issued Local Budget Memorandum (LBM) No. 77-A dated 24 July 2018: Guidelines on the Preparation of the FY 2019 Annual Budgets of Barangays.*

## II. PURPOSE

To prescribe the guidelines on the integration of specific programs, projects, and activities (PPAs) from the PPAN 2017-2022 to the Local Development Plans, and to provide specific guidance for the allocation of local funds for nutrition in the Local Development Plans and the corresponding Local Development and Annual Investment Programs (LD/AIP) as well as the Local Budget starting 2019, in accordance with DILG MC 2018-42 dated 26 March 2018 and DBM LBM No. 77 dated 15 May 2018, DBM LBM No. 77-A dated 24 July 2018, and the Philippine Plan of Action for Nutrition (PPAN) 2017-2022.

- O. Republic Act No. 10354 or the Responsible Parenthood and Reproductive Health Act of 2012, 12 December 2012

#### IV. COVERAGE

This Joint Memorandum Circular covers all Provincial Governors, Mayors of Highly-Urbanized City, Independent Component City/Component City/Municipal Mayors, Punong Barangays, Members of the Sangguniang Panlalawigan/Panlungsod/Bayan/Barangay, DILG Regional/Provincial/City Directors, C/MLGOOs and others concerned.

#### V. POLICY CONTENT AND GUIDELINES

##### A. Prescribed PPAs for Nutrition

All provinces, cities and municipalities including barangays are enjoined to prepare their budget for FY 2020 and onwards for improved nutrition outcomes in accordance with DILG MC 2018-42 dated 26 March 2018, DBM LBM No. 77 and DBM LBM No. 77-A dated 15 May 2018 and 24 July 2018, respectively. Such budget should be anchored on the list of indicative actions from the PPAN 2017-2022 that would be most critical to be implemented to effectively produce sustained nutritional outcomes as per Attachment 2.

These actions consider the unique role of these LGUs, with the cities, municipalities and barangays providing direct services to their constituencies, and provinces providing the enabling environment for scaled-up action in nutrition, including support for poor cities and municipalities. Cities and municipalities also have a role to engage and assist barangays along scaled-up nutrition action.

##### B. Assessment analytics as basis for investment programming and budgeting

Upon receipt of this Circular, LGUs, through their local nutrition committees, are enjoined to review their latest accomplishments related to the suggested nutrition actions as well as Operation *Timbang* (OPT) Plus reports to assess the status of such actions in terms of coverage of the nutritionally vulnerable population (pregnant women, infants 0-5 months old, children 6-23 months old that together comprise the first 1000 days), the nutritionally-affected (stunted children under five years old, wasted children under five years old, overweight and obese children under five years old), nutritionally depressed barangays, geographically isolated and disadvantaged areas, indigenous peoples and urban poor communities.

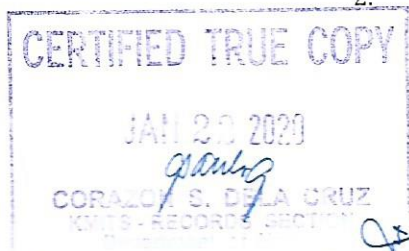

This assessment should help the LGU decide on which of the nutrition actions listed in Attachment 1 will be included in the nutrition action plan and budget for 2019 and onward, and the scale with which these actions will be implemented, e.g. population group and number that will be targeted, and the indicative design of the interventions.

A similar assessment should be done annually to update the local nutrition action plan and the annual investment program.

##### C. Complementary PPAs of National Government Agencies concerned

In deciding on the investment programs and local budgets for nutrition, LGUs should consider that different national government agencies shall provide the following:

1. Department of Health (DOH) will source and finance 100% of the requirements for vitamin A supplementation of children 6 months to under-five years old, iron-folic acid supplements for pregnant women and multiple micronutrient powder for children 6-23 months old.
2. Department of Social Welfare and Development (DSWD) shall cover the cost for supplementary feeding in child development centers and supervised neighborhood plays for children 2-5 years old.

3. Department of Education (DepEd) shall cover the cost for the supplementary feeding for wasted children in schools and the provision of complementary health services.

Thus, local nutrition budgets should not cover the aforementioned investments already provided for or lodged with national government agencies to avoid program duplication and to optimize financial resources for other related programs.

**D. Supplementary tools for status assessment and PPA Final Costing**

The NNC shall provide LGUs with templates and tools to facilitate and simplify the assessment and the costing of these actions given certain assumptions of gaps to be filled and classifications of LGUs, including by income class, number of constituent LGUs (number of municipalities and component cities for a province, and number of barangays for a municipality or component city or highly urbanized city). Notwithstanding the facility of the tool, the final considerations for costing and final cost estimates for the nutrition actions selected by the LGUs remain with the LGUs.

**E. Source of Funding**

Local funds may be tapped for nutrition PPAs, subject to applicable policies and guidelines governing utilization of such funds, and the usual accounting rules and regulations.

**F. Compliance to the Synchronized Local Planning and Budgeting Calendar (SLPBC)**

Pursuant to DILG-NEDA-DBM-DoF JMC No.1 of 2016, *Updated Guidelines on the Harmonization of Local Planning, Investment Programming, Resource Mobilization, Budgeting, Expenditure Management, and Performance Monitoring and Coordination in Fiscal Oversight*, particularly the SLPBC, the local budget shall be submitted to the *Sanggunian* (provincial, municipal and city) by 16 October 2019 and reviewed within 90 days for eventual approval. Thus, local nutrition committees should endeavor to prepare the nutrition budget proposal to comply with the indicative deadlines as specified in the 2016 Joint Memorandum Circular.

**G. Integration with Local Development Plans and Investment Programs**

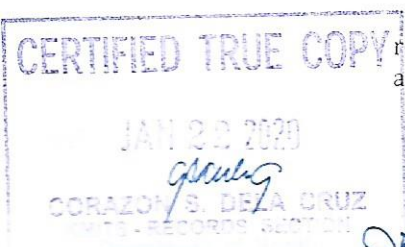

LGUs, through their local nutrition committees and under the leadership of the Nutrition Action Officer, should formulate their local nutrition action plan for 2019-2022 in the first semester of 2020 and on each election year thereafter consistent with NNC Governing Board Resolution No. 3, S 2014, "Approving and Adopting the Guidelines on Local Nutrition Planning".

The Local Nutrition Action Plan should be submitted to the Local Development Council (LDC) for inclusion in the LGUs Annual Investment Program in compliance to the DILG-DBM-NEDA-DOF JMC No. 1 dated November 18, 2016.

This will help ensure a more robust nutrition component and perspective in the Provincial Development and Physical Framework Plan (PDPFP) and Comprehensive Development Plan (CDP) and ultimately in the Local Development Investment Program/Annual Investment Programs. This nutrition action plan will continue to be inspired by actions as contained in Attachment 2.

**H. Plan Implementation and Monitoring**

Implementation and monitoring of the local nutrition action plan is the main responsibility of the LGU with appropriate support from relevant national government agencies pursuant to Section V of DILG Memorandum Circular 2018-42. Monitoring of the

nutrition action plan will be in accordance with the guidelines to be adopted and issued by the National Nutrition Council Governing Board wherein the DOH and DILG are members.

In addition, the NNC shall pursue efforts to strengthen the capacity of DILG field offices to assist the LGUs' compliance on the law.

## VI. TECHNICAL SUPPORT, COMPLIANCE REVIEW AND MONITORING

- A. The NNC in coordination with the DILG, shall assist LGUs in preparing their nutrition action plan and budget for FY 2019 onwards. This technical assistance will come in various forms, e.g. conduct of local nutrition planning workshops, development and orientation on nutrition planning and budget templates and tools, more intensive coaching on the use of these templates and tools. Special emphasis shall be given to the 36 focus provinces and 3 highly-urbanized cities, identified with significant nutritionally vulnerable population (Attachment 3).
- B. The NNC, with the assistance of the DILG, will assess the extent of LGU compliance to this memorandum circular for FY 2019 to determine how LGUs can be assisted further in integrating nutrition concerns in the CDP, AIP, and the local budget.
- C. Provisions in this JMC shall be interpreted considering established policy guidelines on the statutory local development planning and investment programming processes as prescribed by the DILG thru the CDP Guide and other related issuances, as well as the Provincial Local Planning and Expenditure Management (PLPEM) guide as prescribed by NEDA and the Budgetary procedures and requirements as prescribed by the DBM thru the Budget Operations Manual (BOM) 2016.

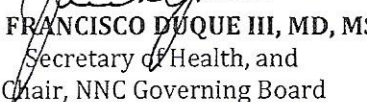

## VII. NUTRITION AND THE SEAL OF GOOD LOCAL GOVERNANCE (SGLG)

To encourage full implementation of the plan, the DILG shall include monitoring of nutrition indicators through Local Governance Performance Management Systems (LGPMS) Profiling and shall consider the same for inclusion in the SGLG criteria for CY 2020 and thereafter.

## VIII. EFFECTIVITY

This Circular shall take effect immediately.

## IX. APPROVING AUTHORITY

  
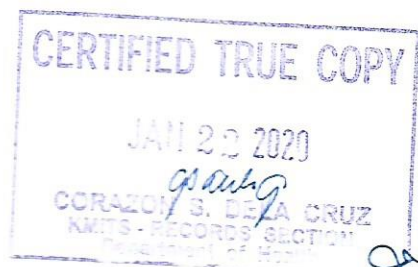

SEC. FRANCISCO DUQUE III, MD, MSc  
Secretary of Health, and  
Chair, NNC Governing Board

  
SEC. EDUARDO M. AÑO  
Secretary, DILG,  
Member, NNC Governing Board

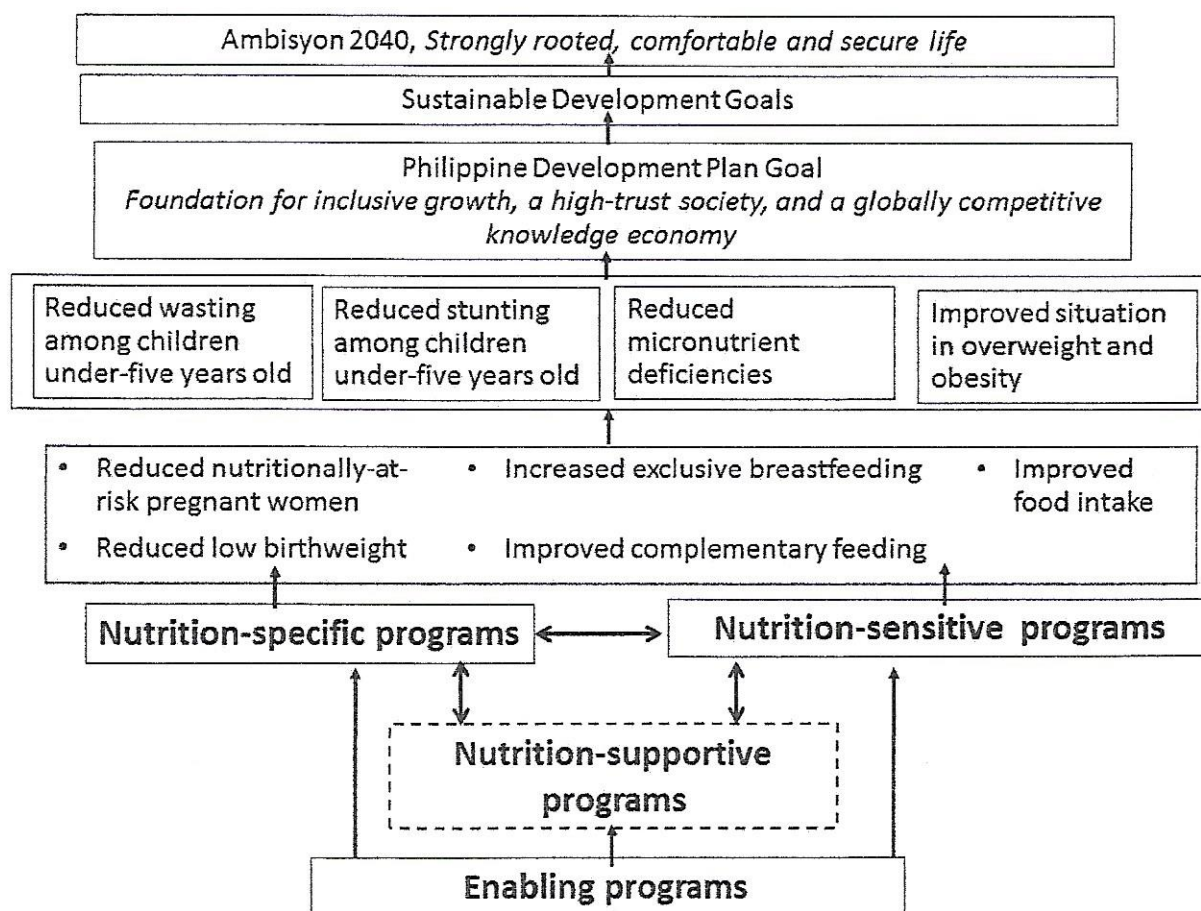

## X. FEEDBACK

For queries, kindly contact the Bureau of Local Government Development at telephone numbers (02) 929-9235; 927-7852 and 925-0356, email address: blgd.gad@gmail.com and/or National Nutrition Council at telephone numbers (02) 843-1337; 843-5818 & 843-5824, email address: info@nnc.gov.ph.

Attachment 1.

PPAN 2017-2022 Program Framework

**Attachment 2.**  
***Suggested Projects or Actions at the Barangay/Municipal/City and Provincial Level  
for PPAN 2017-2022 Implementation***

The following table lists suggested nutrition actions at the barangay, municipal/city and provincial levels. These suggested nutrition actions consider that the barangay, municipal/city level are primarily involved in service delivery, while the provincial level is an enabler through support to disadvantaged municipalities, capacity building, monitoring and evaluation.

PPAN Program	Suggested Projects or Actions at Barangay Level	Suggested Projects or Actions at Municipal or City Level	Suggested Projects or Actions at Provincial Level
1. Program for the First 1000 Days inclusive of Infant and Young Child Feeding (IYCF), Dietary Supplementation Program, Micronutrient Supplementation (MNS) and Nutrition Promotion for Behavior Change)	1.1 Intensive pregnancy tracking, and enrolment of pregnant women to pre-natal care services including nutrition counselling among pregnant women, through: 1.1.1 Text blast or any other form of communication 1.1.2 Outreach activities 1.1.3 Workshop for BHS teams for intensive pregnancy tracking	1.1 Intensive pregnancy tracking, and enrolment to pre-natal care services including nutrition counseling among pregnant women, through: 1.1.1 Text blast or any other form of communication 1.1.2 Outreach activities 1.1.3 Workshop for RHU teams for intensive pregnancy tracking	
	<i>Messages will include reminders on going to the health center to seek prenatal care, nutritional care of the pregnant woman, delivery in accredited health facility to ensure proper care including practices that will facilitate the early initiation of breastfeeding.</i>	<i>Messages will include reminders on going to the health center to seek prenatal care, nutritional care of the pregnant woman, delivery in accredited health facility to ensure proper care including practices that will facilitate the early initiation of breastfeeding.</i>
