Preface

These Philippine Bidding Documents (PBDs) for the procurement of Consulting Services through Competitive Bidding have been prepared by the Government of the Philippines (GoP) for use by all branches, agencies, departments, bureaus, offices, or instrumentalities of the Government, including government-owned and/or -controlled corporations (GOCCs), government financial institutions (GFIs), state universities and colleges (SUCs), local government units (LGUs), and autonomous regional government. The procedures and practices presented in this document have been developed through broad experience, and are for mandatory use in projects that are financed in whole or in part by the GoP or the World Bank or any foreign government/foreign or international financing institution in accordance with the provisions of the 2016 Revised Implementing Rules and Regulations (IRR) of Republic Act 9184 (R.A. 9184).

The Bidding Documents shall clearly and adequately define, among others: (a) the objectives, scope, and expected outputs and/or results of the proposed contract; (b) the minimum eligibility requirements of bidders, such as track record to be determined by the Head of the Procuring Entity; (c) the expected contract duration, delivery schedule and/or time frame; and (d) the obligations, duties, and/or functions of the winning bidder.

In order to simplify the preparation of the Bidding Documents for each procurement, the PBDs groups the provisions that are intended to be used unchanged in Section II. Eligibility Documents of Part I; and Section II. Instructions to Bidders (ITB) and Section IV. General Conditions of Contract (GCC) of Part II. Data and provisions specific to each procurement and contract should be included in Section III. Eligibility Data Sheet (EDS) of Part I, Section III. Bid Data Sheet (BDS), and Section V. Special Conditions of Contract (SCC) of Part II. The forms to be used are provided in the attachments.

Care should be taken to check the relevance of the provisions of the Bidding Documents against the requirements of the specific Consulting Services to be procured. The following general directions should be observed when using the documents:

- (a) All the documents listed in the Table of Contents are normally required for the procurement of Consulting Services. However, they should be adapted as necessary to the circumstances of the particular Project.
- (b) These PBDs are divided into Part I and Part II, which shall be both made available from the time the Request for Expression of Interest is first advertised/posted until the deadline for the submission and receipt of bids
- (c) Specific details, such as the “name of the Procuring Entity” and “address for proposal submission,” should be furnished in the EDS, BDS, and SCC. The final documents should contain neither blank spaces nor options.
- (d) This Preface and the footnotes or notes in italics included in the Request for Expression of Interest, EDS, BDS, SCC, Terms of Reference, and Appendices are not part of the text of the final document, although they contain instructions that the Procuring Entity should strictly follow. The Bidding Documents should

donation of government? What were their experiences relative to receiving food packs? How did they receive the MNP and vitamin A capsules? What were their positive and negative experiences in the in-patient treatment program or out-patient program for managing acute malnutrition? What nutrition and related services were received after leaving the evacuation? Recommendations for improved nutrition services?

The focus group discussions should explore experiences in emergencies in the context of nutrition services, e.g. what nutrition services were received in the response, recovery, and rehabilitation phases, the level of satisfaction to these services, and suggestions to improve the quality of services.

Target areas for the FGDs are listed in Table 1. These areas either experienced a recent disaster- or emergency-related event or are at risk to such events. These areas may also be used for key informant interviews at sub-national levels.

Proposed Concept Paper for the Consultation Workshop to Review and Revise the Policy on Nutrition Management in Disasters and Emergencies

Background

NNC Governing Board Resolution No. 1, series of 2009 adopting the National Policy on Nutrition Management in Emergencies and Disasters was approved on 03 December 2009.

The policy covers the following concerns:

1. Scope, e.g. who should apply the guidelines
2. Objectives of the policy
3. Policy statements underlying the provisions of the guidelines
4. Implementing mechanisms covers range of processes that includes the following:
 - a. Coordination and networking
 - b. Planning
 - c. Capacity building
 - d. Organizational support
 - e. Social mobilization
 - f. Advocacy
 - g. Logistics management
 - h. Surveillance, monitoring and evaluation
 - i. Service delivery
5. Institutional management that lays out the roles of various stakeholders

Since the policy was adopted in 2009, the country has experienced severe disasters, specifically, Typhoons Ondoy (2009), Sendong (2010), Pablo (2011), Zamboanga crisis (2013), Bohol earthquake (2013), Yolanda (2013), and Marawi City Siege (2017), through which more lessons have been learned along nutrition management in emergencies.

These disasters have disrupted the lives of the populations affected, putting them at risk of developing various undesirable health and nutrition-related conditions, including those that threaten the nutritional status of the individuals especially the most vulnerable groups: infants, children, pregnant women and breastfeeding mothers, older persons, persons with disabilities, and people living with debilitating conditions.

On another plane, there have been changes in the overall disaster risk reduction and management system. These include the designation of the NNC as chair of the Nutrition Cluster, and the adoption of the National Disaster Response Plan that lays out the response protocols of all response clusters.

Concept Paper for Updating the National Policy
on Nutrition Management in Emergencies and Disasters

Thus, the National Nutrition Cluster has embarked on the review and revision of the policy. The review involves various processes that includes a consultation workshop. This concept paper describes how the workshop will be organized and managed.

Expected output. Comments and suggestions on the draft of the Updated National Policy on Nutrition Management in Emergencies and Disasters

Background

NNC Governing Board Resolution No. 1, series of 2009 adopting the National Policy on Nutrition Management in Emergencies and Disasters was approved on 03 December 2009.

The policy covers the following concerns:

5. Institutional management that lays out the roles of various stakeholders

Since the policy was adopted in 2009, the country has experienced severe disasters, specifically, Typhoons Ondoy (2009), Sendong (2010), Pablo (2011), Zamboanga crisis (2013), Bohol earthquake (2013), Yolanda (2013), and Marawi City Siege (2017), through which more lessons have been learned along nutrition management in emergencies.

Cluster, and the adoption of the National Disaster Response Plan that lays out the response protocols of all response clusters.

Thus, it is very appropriate and essential to update the policy to further improve guidance for nutrition clusters at various levels and in the process, prevent a worsening of the nutrition situation.

~~This document outlines the terms of reference of the consulting group to be engaged in reviewing and updating the policy.~~

General Objective. To update the National Policy on Nutrition Management in Emergencies and Disasters

Specific Objectives

1. To determine the usefulness and relevance of the policy
2. To determine provisions of the policy that should be deleted or modified as well as those that should be added

Expected output

1. ~~A report on the assessment of the policy~~
2. Draft Revised Policy on Nutrition Management in Emergencies and Disasters

Qualifications of Contracted Consultancy Group

1. The contracted consultancy group shall have a track record of at least five years in the Philippines. It will need to demonstrate experiences related to nutrition management in emergencies and disasters, either as an organization or through the members of the consulting team.
2. The contracted consultancy group needs to submit a list of clients for the past three years for completed and ongoing projects related to engagement.
3. Qualifications and CVs of members of the consultancy team should be part of the submission.

Qualifications of the Members of Study Team

1. Members of the study team shall have an advanced university degree in public health, nutrition or a related technical field with experience on nutrition management in emergencies and disasters.
2. Strong analytical and report writing skills
3. Excellent communication and facilitation skills
4. Fluency in English is required.

Scope of Work of the Consultancy Group

In general, the consulting group shall review the policy on nutrition management in emergencies along the following concerns:

1. Consistency with overall government policies and processes vis-à-vis disaster risk reduction and management
2. Consistency with international guidance on Disaster Risk Reduction and Management
3. Consistency with other related current global evidence and recommendations
4. Consistency with the WHO Building Blocks for Health Systems, as applicable
5. Structure and organization (section headings/sub headings)
6. Flow and appropriateness (language, tone, cultural sensitivity, clarity)
7. Feasibility and applicability in field / sub-national context
8. Others, as may be suggested by the consultancy group

Specific activities to be undertaken are as follows:

1. Conduct of a desk review of relevant documents, e.g. international guidelines, highlights of meetings of the National Nutrition Cluster and local clusters of areas affected by major disasters, documentation report of workshops conducted, e.g. Post-Incident Evaluation for Typhoon Pablo, related survey or special study reports at the national level, legislations and administrative issuances on disaster risk reduction and management. The desk review will identify initially the items in the policy that are no longer relevant and should be updated, or items that could be deleted or modified, or items that should be added.
2. Conduct of key informant interviews, covering key officials and staff who played a crucial role in nutrition prevention and mitigation, preparedness, response, and recovery and rehabilitation of major disasters and emergencies at national and local levels. These include members of the National Nutrition Cluster, the Regional Nutrition Cluster, and local nutrition clusters. The interviews should surface how nutrition in emergencies is planned, implemented, coordinated, monitored, and evaluated at different levels and in consideration of the cluster system in disaster risk reduction and management. Thus, the interviews should surface what activities are undertaken in connection with nutrition in emergencies at the mitigation, preparedness, response, recovery and rehabilitation phases. These interviews should also explore the extent to which the provisions of the policy guide are known to the interviewees, and are applied, extent of coordination with other clusters, the level of competency of those who are involved in nutrition in emergencies, and recommendations to improve the effectiveness and efficiency of efforts at various phases. Conduct of focus group discussions (FGD) **among those affected** (those who stayed in evacuation centers including those who were pregnant or had small children at the time of the disaster) or beneficiaries of CMAM (community-based management of acute malnutrition) program implemented in relation to an event, among others.

The local social welfare and development officer will be requested to help in identifying FGD participants.

The discussion could focus on experiences in the evacuation center, e.g. What kind of nutrition assessment was conducted in their area? What was used as a separate space for pregnant or lactating women? How did they find the separate space? What are their thoughts on the no-milk donation of government? What were their experiences relative to receiving food packs? How did they receive the MNP and vitamin A capsules? What were their positive and negative experiences in the in-patient treatment program or out-patient program for managing acute malnutrition? What nutrition and related services were received after leaving the evacuation center? Recommendations for improved nutrition services?

Target areas for the FGDs are listed in Table 1. These areas either experienced a recent disaster- or emergency-related event or are at risk to such events. These areas may also be used for key informant interviews at sub-national levels.

A. General

1. Introduction

- 1.1. The Procuring Entity named in the Bid Data Sheet (**BDS**) shall select an individual, sole proprietorship, cooperative, partnership, corporation, or a joint venture (JV) (hereinafter referred to as “Consultant”) from among those short listed, in accordance with the evaluation procedure specified in the **BDS**.
- 1.2. The Procuring Entity has received financing (hereinafter called “funds”) from the source indicated in the **BDS** (hereinafter called the “Funding Source”) toward the cost of the Project named in the **BDS**. The Procuring Entity intends to apply a portion or the whole of the funds to payments for this Project.
- 1.3. Consultants are invited to submit bids composed of a technical proposal and a financial proposal for Consulting Services required for this Project described in the **BDS**. Bids shall be the basis for contract negotiations and ultimately for a signed contract with the selected Consultant.
- 1.4. If the **BDS** indicates that the Project will be completed in phases, each phase must be completed to the Procuring Entity’s satisfaction prior to the commencement of the next phase.
- 1.5. Consultants must familiarize themselves with local conditions and take them into account in preparing their bids. To obtain firsthand information on the project and on the local conditions, Consultants are encouraged to visit the Procuring Entity before submitting a bid and to attend the pre-bid conference specified in **ITB** Clause 7.
- 1.6. The Consultants’ costs of preparing their bids and negotiating the contract, including a visit to the Procuring Entity, are not reimbursable as a direct cost of the project.
- 1.7. Consultants shall not be under a declaration of ineligibility for corrupt, fraudulent, collusive, coercive or obstructive practices issued by the Funding Source or the Procuring Entity in accordance with **ITB** Clause 3.1.

2. Conflict of Interest

- 2.1. The Funding Source’s policy requires that Consultants provide professional, objective, and impartial advice and at all times hold the Procuring Entity’s interests paramount, without any consideration for future work, and strictly avoid situations where a conflict of interest shall arise with their other projects or their own interests. Consultants shall not be hired for any project that would be in conflict with their prior or current obligations to other entities, or that may place them in a position of not being able to carry out the Project in the best interest of the Procuring Entity. Without limitation on the generality of this rule, Consultants shall not be hired under the circumstances set forth below:
 - (k) If a Consultant combines the function of consulting with those of contracting and/or supply of equipment for the same Project;

- (l) If a Consultant is associated with, affiliated to, or owned by a contractor or a manufacturing firm with departments or design offices offering services as consultants unless such Consultant includes relevant information on such relationships along with a statement in the Technical Proposal cover letter to the effect that the Consultant shall limit its role to that of a consultant and disqualify itself and its associates from work in any other capacity that may emerge from the Project (including bidding for any part of the future project). The contract with the Consultant selected to undertake the Project shall contain an appropriate provision to such effect; or
 - (m) If there is a conflict among consulting projects, the Consultant (including its personnel and subconsultants) and any subsidiaries or entities controlled by such Consultant shall not be recruited for the relevant project. The duties of the Consultant depend on the circumstances of each case. While continuity of consulting services may be appropriate in particular situations where no conflict exists, a Consultant cannot be recruited to carry out a project that, by its nature, shall result in conflict with a prior or current project of such Consultant. Examples of the situations mentioned are when a Consultant engaged to prepare engineering design for an infrastructure project shall not be recruited to prepare an independent environmental assessment for the same project; similarly, a Consultant assisting a Procuring Entity in privatization of public assets shall not purchase, nor advise purchasers, of such assets; or a Consultant hired to prepare Terms of Reference (TOR) for a project shall not be recruited for the project in question.
- 2.2. Consultants shall not be related to the Head of the Procuring Entity (HoPE), members of the BAC, the TWG, and the BAC Secretariat, the head of the PMO or the end-user unit, and the project consultants, by consanguinity or affinity up to the third civil degree. The prohibition shall apply as follows:
- (a) If the Consultant is an individual or sole proprietorship, then to himself;
 - (b) If the Consultant is a partnership, then to all its officers and members;
 - (c) If the Consultant is a corporation, then to all its officers, directors and controlling stockholders;
 - (d) If the Consultant is a cooperative, to all its officers, directors, and controlling shareholders or members; or
 - (e) If the Consultant is a JV, the provisions of items (a), (b), (c), or (d) of this Section shall correspondingly apply to each of the members of the said joint venture, as may be appropriate.

Relationship of the nature described above or a failure to comply with the provisions of this clause will result in the rejection of the Consultant's bid.

- 2.3. Subject to the provisions of **ITB** Clause 2, any previous or ongoing participation by the Consultant, its professional staff, or its affiliates or associates under a

contract with the Funding Source or the Procuring Entity in relation to this Project may result in the rejection of its bid. Consultants should clarify their situation in that respect with the Procuring Entity before preparing its bid.

- 2.4. Failure by a Consultant to fully disclose potential conflict of interest at the time of Bid submission, or at a later date in the event that the potential conflict arises after such date, shall result in the Procuring Entity and/or the Funding Source seeking the imposition of the maximum administrative, civil and criminal penalties up to and including imprisonment.
- 2.5. Consultants are discouraged to include officials and employees of the Government of the Philippines (GoP) as part of its personnel. Participation of officials and employees of the GoP in the Project shall be subject to existing rules and regulations of the Civil Service Commission.
- 2.6. Fairness and transparency in the selection process require that Consultants do not derive unfair competitive advantage from having provided consulting services related to the Project in question. To this end, the Procuring Entity shall make available to all the short listed consultants together with the Bidding Documents all information that would in that respect give each Consultant a competitive advantage.

3. Corrupt, Fraudulent, Collusive, Coercive, and Obstructive Practices

- 3.1. The Procuring Entity as well as the Consultants shall observe the highest standard of ethics during the procurement and execution of the contract. In pursuance of this policy, the Procuring Entity:
 - (a) defines, for purposes of this provision, the terms set forth below as follows:
 - (i) “corrupt practice” means behavior on the part of officials in the public or private sectors by which they improperly and unlawfully enrich themselves, others, or induce others to do so, by misusing the position in which they are placed, and includes the offering, giving, receiving, or soliciting of anything of value to influence the action of any such official in the procurement process or in contract execution; entering, on behalf of the GoP, into any contract or transaction manifestly and grossly disadvantageous to the same, whether or not the public officer profited or will profit thereby, and similar acts as provided in Republic Act 3019.
 - (ii) “fraudulent practice” means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of the Procuring Entity, and includes collusive practices among Bidders (prior to or after bid submission) designed to establish bid prices at artificial, non-competitive levels and to deprive the Procuring Entity of the benefits of free and open competition.

- (iii) “collusive practices” means a scheme or arrangement between two or more Bidders, with or without the knowledge of the Procuring Entity, designed to establish bid prices at artificial, non-competitive levels.
 - (iv) “coercive practices” means harming or threatening to harm, directly or indirectly, persons, or their property to influence their participation in a procurement process, or affect the execution of a contract;
 - (v) “obstructive practice” is
 - (aa) deliberately destroying, falsifying, altering or concealing of evidence material to an administrative proceedings or investigation or making false statements to investigators in order to materially impede an administrative proceedings or investigation of the Procuring Entity or any foreign government/foreign or international financing institution into allegations of a corrupt, fraudulent, coercive or collusive practice; and/or threatening, harassing or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the administrative proceedings or investigation or from pursuing such proceedings or investigation; or
 - (bb) acts intended to materially impede the exercise of the inspection and audit rights of the Procuring Entity or any foreign government/foreign or international financing institution herein.
 - (b) will reject a proposal for award if it determines that the Bidder recommended for award has engaged in any of the practices mentioned in this Clause for purposes of competing for the contract.
- 3.2. Further, the Procuring Entity will seek to impose the maximum civil, administrative, and/or criminal penalties available under applicable laws on individuals and organizations deemed to be involved in any of the practices mentioned in **ITB** Clause 3.1(a).
- 3.3. Furthermore, the Funding Source and the Procuring Entity reserve the right to inspect and audit records and accounts of a Consultant in the bidding for and performance of a contract themselves or through independent auditors as reflected in the **GCC** Clause 51.

4. Consultant’s Responsibilities

- 4.1. The Consultant or its duly authorized representative shall submit a sworn statement in the form prescribed in

Proposed Concept Paper for the Consultation Workshop to Review and Revise the Policy on Nutrition Management in Disasters and Emergencies

Background

NNC Governing Board Resolution No. 1, series of 2009 adopting the National Policy on Nutrition Management in Emergencies and Disasters was approved on 03 December 2009.

The policy covers the following concerns:

1. Scope, e.g. who should apply the guidelines
2. Objectives of the policy
3. Policy statements underlying the provisions of the guidelines
4. Implementing mechanisms covers range of processes that includes the following:
 - a. Coordination and networking
 - b. Planning
 - c. Capacity building
 - d. Organizational support
 - e. Social mobilization
 - f. Advocacy
 - g. Logistics management
 - h. Surveillance, monitoring and evaluation
 - i. Service delivery
5. Institutional management that lays out the roles of various stakeholders

Since the policy was adopted in 2009, the country has experienced severe disasters, specifically, Typhoons Ondoy (2009), Sendong (2010), Pablo (2011), Zamboanga crisis (2013), Bohol earthquake (2013), Yolanda (2013), and Marawi City Siege (2017), through which more lessons have been learned along nutrition management in emergencies.

These disasters have disrupted the lives of the populations affected, putting them at risk of developing various undesirable health and nutrition-related conditions, including those that threaten the nutritional status of the individuals especially the most vulnerable groups: infants, children, pregnant women and breastfeeding mothers, older persons, persons with disabilities, and people living with debilitating conditions.

On another plane, there have been changes in the overall disaster risk reduction and management system. These include the designation of the NNC as chair of the Nutrition Cluster, and the adoption of the National Disaster Response Plan that lays out the response protocols of all response clusters.

Concept Paper for Updating the National Policy

National Policy on Nutrition Management in Emergencies and Disasters**

Background

NNC Governing Board Resolution No. 1, series of 2009 adopting the National Policy on Nutrition Management in Emergencies and Disasters was approved on 03 December 2009.

The policy covers the following concerns:

1. Scope, e.g. who should apply the guidelines
2. Objectives of the policy
3. Policy statements underlying the provisions of the guidelines
4. Implementing mechanisms covers range of processes that includes the following:
 - a. Coordination and networking

 - d. Organizational support
 - e. Social mobilization
 - f. Advocacy
 - g. Logistics management
 - h. Surveillance, monitoring and evaluation
 - i. Service delivery
5. Institutional management that lays out the roles of various stakeholders

Since the policy was adopted in 2009, the country has experienced severe disasters, specifically, Typhoons Ondoy (2009), Sendong (2010), Pablo (2011), Zamboanga crisis (2013), Bohol earthquake (2013), Yolanda (2013), and Marawi City Siege (2017), through which more lessons have been learned along nutrition management in emergencies.

These disasters have disrupted the lives of the populations affected, putting them at risk of developing various undesirable health and nutrition-related conditions, including those that threaten the nutritional status of the individuals especially the most vulnerable groups: infants, children, pregnant women and breastfeeding mothers, older persons, persons with disabilities, and people living with debilitating conditions.

Cluster, and the adoption of the National Disaster Response Plan that lays out the response protocols of all response clusters.

Thus, it is very appropriate and essential to update the policy to further improve guidance for nutrition clusters at various levels and in the process, prevent a worsening of the nutrition situation.

~~This document outlines the terms of reference of the consulting group to be engaged in reviewing and updating the policy.~~

General Objective. To update the National Policy on Nutrition Management in Emergencies and Disasters

Specific Objectives

1. To determine the usefulness and relevance of the policy
2. To determine provisions of the policy that should be deleted or modified as well as those that should be added

Expected output

1. ~~A report on the assessment of the policy~~
2. Draft Revised Policy on Nutrition Management in Emergencies and Disasters

Qualifications of Contracted Consultancy Group

1. The contracted consultancy group shall have a track record of at least five years in the Philippines. It will need to demonstrate experiences related to nutrition management in emergencies and disasters, either as an organization or through the members of the consulting team.
2. The contracted consultancy group needs to submit a list of clients for the past three years for completed and ongoing projects related to engagement.
3. Qualifications and CVs of members of the consultancy team should be part of the submission.

Qualifications of the Members of Study Team

1. Members of the study team shall have an advanced university degree in public health, nutrition or a related technical field with experience on nutrition management in emergencies and disasters.
2. Strong analytical and report writing skills
3. Excellent communication and facilitation skills
4. Fluency in English is required.

Scope of Work of the Consultancy Group

In general, the consulting group shall review the policy on nutrition management in emergencies along the following concerns:

1. Consistency with overall government policies and processes vis-à-vis disaster risk reduction and management
2. Consistency with international guidance on Disaster Risk Reduction and Management
3. Consistency with other related current global evidence and recommendations
4. Consistency with the WHO Building Blocks for Health Systems, as applicable
5. Structure and organization (section headings/sub headings)
6. Flow and appropriateness (language, tone, cultural sensitivity, clarity)
7. Feasibility and applicability in field / sub-national context
8. Others, as may be suggested by the consultancy group

Specific activities to be undertaken are as follows:

1. Conduct of a desk review of relevant documents, e.g. international guidelines, highlights of meetings of the National Nutrition Cluster and local clusters of areas affected by major disasters, documentation report of workshops conducted, e.g. Post-Incident Evaluation for Typhoon Pablo, related survey or special study reports at the national level, legislations and administrative issuances on disaster risk reduction and management. The desk review will identify initially the items in the policy that are no longer relevant and should be updated, or items that could be deleted or modified, or items that should be added.
2. Conduct of key informant interviews, covering key officials and staff who played a crucial role in nutrition prevention and mitigation, preparedness, response, and recovery and rehabilitation of major disasters and emergencies at national and local levels. These include members of the National Nutrition Cluster, the Regional Nutrition Cluster, and local nutrition clusters. The interviews should surface how nutrition in emergencies is planned, implemented, coordinated, monitored, and evaluated at different levels and in consideration of the cluster system in disaster risk reduction and management. Thus, the interviews should surface what activities are undertaken in connection with nutrition in emergencies at the mitigation, preparedness, response, recovery and rehabilitation phases. These interviews should also explore the extent to which the provisions of the policy guide are known to the interviewees, and are applied, extent of coordination with other clusters, the level of competency of those who are involved in nutrition in emergencies, and recommendations to improve the effectiveness and efficiency of efforts at various phases. Conduct of focus group discussions (FGD) *among those affected* (those who stayed in evacuation centers including those who were pregnant or had small children at the time of the disaster) or beneficiaries of CMAM (community-based management of acute malnutrition) program implemented in relation to an event, among others.

The local social welfare and development officer will be requested to help in identifying FGD participants.

The discussion could focus on experiences in the evacuation center, e.g. What kind of nutrition assessment was conducted in their area? What was used as a separate space for pregnant or lactating women? How did they find the separate space? What are their thoughts on the no-milk donation of government? What were their experiences relative to receiving food packs? How did they receive the MNP and vitamin A capsules? What were their positive and negative experiences in the in-patient treatment program or out-patient program for managing acute malnutrition? What nutrition and related services were received after leaving the evacuation center? Recommendations for improved nutrition services?

Target areas for the FGDs are listed in Table 1. These areas either experienced a recent disaster- or emergency-related event or are at risk to such events. These areas may also be used for key informant interviews at sub-national levels.

What were their positive and negative experiences in the in-patient treatment program or out-patient program for managing acute malnutrition? What nutrition and related services were received after leaving the evacuation? Recommendations for improved nutrition services?

The focus group discussions should explore experiences in emergencies in the context of nutrition services, e.g. what nutrition services were received in the response, recovery, and rehabilitation phases, the level of satisfaction to these services, and suggestions to improve the quality of services.

Target areas for the FGDs are listed in Table 1. These areas either experienced a recent disaster- or emergency-related event or are at risk to such events. These areas may also be used for key informant interviews at sub-national levels.

Proposed Concept Paper for the Consultation Workshop to Review and Revise the Policy on Nutrition Management in Disasters and Emergencies

Background

NNC Governing Board Resolution No. 1, series of 2009 adopting the National Policy on Nutrition Management in Emergencies and Disasters was approved on 03 December 2009.

The policy covers the following concerns:

1. Scope, e.g. who should apply the guidelines
2. Objectives of the policy
3. Policy statements underlying the provisions of the guidelines
4. Implementing mechanisms covers range of processes that includes the following:
 - a. Coordination and networking
 - b. Planning
 - c. Capacity building
 - d. Organizational support
 - e. Social mobilization
 - f. Advocacy
 - g. Logistics management
 - h. Surveillance, monitoring and evaluation
 - i. Service delivery
5. Institutional management that lays out the roles of various stakeholders

Since the policy was adopted in 2009, the country has experienced severe disasters, specifically, Typhoons Ondoy (2009), Sendong (2010), Pablo (2011), Zamboanga crisis (2013), Bohol earthquake (2013), Yolanda (2013), and Marawi City Siege (2017), through which more lessons have been learned along nutrition management in emergencies.

These disasters have disrupted the lives of the populations affected, putting them at risk of developing various undesirable health and nutrition-related conditions, including those that threaten the nutritional status of the individuals especially the most vulnerable groups: infants, children, pregnant women and breastfeeding mothers, older persons, persons with disabilities, and people living with debilitating conditions.

On another plane, there have been changes in the overall disaster risk reduction and management system. These include the designation of the NNC as chair of the Nutrition Cluster, and the adoption of the National Disaster Response Plan that lays out the response protocols of all response clusters.

Concept Paper for Updating the National Policy
on Nutrition Management in Emergencies and Disasters

Thus, the National Nutrition Cluster has embarked on the review and revision of the policy. The review involves various processes that includes a consultation workshop. This concept paper describes how the workshop will be organized and managed.

Expected output. Comments and suggestions on the draft of the Updated National Policy on Nutrition Management in Emergencies and Disasters

Background

The policy covers the following concerns:

5. Institutional management that lays out the roles of various stakeholders

Since the policy was adopted in 2009, the country has experienced severe disasters, specifically, Typhoons Ondoy (2009), Sendong (2010), Pablo (2011), Zamboanga crisis (2013), Bohol earthquake (2013), Yolanda (2013), and Marawi City Siege (2017), through which more lessons have been learned along nutrition management in emergencies.

Cluster, and the adoption of the National Disaster Response Plan that lays out the response protocols of all response clusters.

Thus, it is very appropriate and essential to update the policy to further improve guidance for nutrition clusters at various levels and in the process, prevent a worsening of the nutrition situation.

~~This document outlines the terms of reference of the consulting group to be engaged in reviewing and updating the policy.~~

General Objective. To update the National Policy on Nutrition Management in Emergencies and Disasters

Specific Objectives

1. To determine the usefulness and relevance of the policy
2. To determine provisions of the policy that should be deleted or modified as well as those that should be added

Expected output

1. ~~A report on the assessment of the policy~~
2. Draft Revised Policy on Nutrition Management in Emergencies and Disasters

Qualifications of Contracted Consultancy Group

1. The contracted consultancy group shall have a track record of at least five years in the Philippines. It will need to demonstrate experiences related to nutrition management in emergencies and disasters, either as an organization or through the members of the consulting team.
2. The contracted consultancy group needs to submit a list of clients for the past three years for completed and ongoing projects related to engagement.
3. Qualifications and CVs of members of the consultancy team should be part of the submission.

Qualifications of the Members of Study Team

1. Members of the study team shall have an advanced university degree in public health, nutrition or a related technical field with experience on nutrition management in emergencies and disasters.
2. Strong analytical and report writing skills
3. Excellent communication and facilitation skills
4. Fluency in English is required.

Scope of Work of the Consultancy Group

In general, the consulting group shall review the policy on nutrition management in emergencies along the following concerns:

1. Consistency with overall government policies and processes vis-à-vis disaster risk reduction and management
2. Consistency with international guidance on Disaster Risk Reduction and Management
3. Consistency with other related current global evidence and recommendations
4. Consistency with the WHO Building Blocks for Health Systems, as applicable
5. Structure and organization (section headings/sub headings)
6. Flow and appropriateness (language, tone, cultural sensitivity, clarity)
7. Feasibility and applicability in field / sub-national context
8. Others, as may be suggested by the consultancy group

Specific activities to be undertaken are as follows:

1. Conduct of a desk review of relevant documents, e.g. international guidelines, highlights of meetings of the National Nutrition Cluster and local clusters of areas affected by major disasters, documentation report of workshops conducted, e.g. Post-Incident Evaluation for Typhoon Pablo, related survey or special study reports at the national level, legislations and administrative issuances on disaster risk reduction and management. The desk review will identify initially the items in the policy that are no longer relevant and should be updated, or items that could be deleted or modified, or items that should be added.
2. Conduct of key informant interviews, covering key officials and staff who played a crucial role in nutrition prevention and mitigation, preparedness, response, and recovery and rehabilitation of major disasters and emergencies at national and local levels. These include members of the National Nutrition Cluster, the Regional Nutrition Cluster, and local nutrition clusters. The interviews should surface how nutrition in emergencies is planned, implemented, coordinated, monitored, and evaluated at different levels and in consideration of the cluster system in disaster risk reduction and management. Thus, the interviews should surface what activities are undertaken in connection with nutrition in emergencies at the mitigation, preparedness, response, recovery and rehabilitation phases. These interviews should also explore the extent to which the provisions of the policy guide are known to the interviewees, and are applied, extent of coordination with other clusters, the level of competency of those who are involved in nutrition in emergencies, and recommendations to improve the effectiveness and efficiency of efforts at various phases. Conduct of focus group discussions (FGD) *among those affected* (those who stayed in evacuation centers including those who were pregnant or had small children at the time of the disaster) or beneficiaries of CMAM (community-based management of acute malnutrition) program implemented in relation to an event, among others.

The local social welfare and development officer will be requested to help in identifying FGD participants.

The discussion could focus on experiences in the evacuation center, e.g. What kind of nutrition assessment was conducted in their area? What was used as a separate space for pregnant or lactating women? How did they find the separate space? What are their thoughts on the no-milk donation of government? What were their experiences relative to receiving food packs? How did they receive the MNP and vitamin A capsules? What were their positive and negative experiences in the in-patient treatment program or out-patient program for managing acute malnutrition? What nutrition and related services were received after leaving the evacuation center? Recommendations for improved nutrition services?

Target areas for the FGDs are listed in Table 1. These areas either experienced a recent disaster- or emergency-related event or are at risk to such events. These areas may also be used for key informant interviews at sub-national levels.

Proposed Concept Paper for the Consultation Workshop to Review and Revise the Policy on Nutrition Management in Disasters and Emergencies

Background

NNC Governing Board Resolution No. 1, series of 2009 adopting the National Policy on Nutrition Management in Emergencies and Disasters was approved on 03 December 2009.

The policy covers the following concerns:

1. Scope, e.g. who should apply the guidelines
2. Objectives of the policy
3. Policy statements underlying the provisions of the guidelines
4. Implementing mechanisms covers range of processes that includes the following:
 - a. Coordination and networking
 - b. Planning
 - c. Capacity building
 - d. Organizational support
 - e. Social mobilization
 - f. Advocacy
 - g. Logistics management
 - h. Surveillance, monitoring and evaluation
 - i. Service delivery
5. Institutional management that lays out the roles of various stakeholders

Since the policy was adopted in 2009, the country has experienced severe disasters, specifically, Typhoons Ondoy (2009), Sendong (2010), Pablo (2011), Zamboanga crisis (2013), Bohol earthquake (2013), Yolanda (2013), and Marawi City Siege (2017), through which more lessons have been learned along nutrition management in emergencies.

These disasters have disrupted the lives of the populations affected, putting them at risk of developing various undesirable health and nutrition-related conditions, including those that threaten the nutritional status of the individuals especially the most vulnerable groups: infants, children, pregnant women and breastfeeding mothers, older persons, persons with disabilities, and people living with debilitating conditions.

On another plane, there have been changes in the overall disaster risk reduction and management system. These include the designation of the NNC as chair of the Nutrition Cluster, and the adoption of the National Disaster Response Plan that lays out the response protocols of all response clusters.

Concept Paper for Updating the National Policy

Cluster, and the adoption of the National Disaster Response Plan that lays out the response protocols of all response clusters.

Thus, it is very appropriate and essential to update the policy to further improve guidance for nutrition clusters at various levels and in the process, prevent a worsening of the nutrition situation.

~~This document outlines the terms of reference of the consulting group to be engaged in reviewing and updating the policy.~~

General Objective. To update the National Policy on Nutrition Management in Emergencies and Disasters

Specific Objectives

1. To determine the usefulness and relevance of the policy
2. To determine provisions of the policy that should be deleted or modified as well as those that should be added

Expected output

1. ~~A report on the assessment of the policy~~
2. Draft Revised Policy on Nutrition Management in Emergencies and Disasters

Qualifications of Contracted Consultancy Group

1. The contracted consultancy group shall have a track record of at least five years in the Philippines. It will need to demonstrate experiences related to nutrition management in emergencies and disasters, either as an organization or through the members of the consulting team.
2. The contracted consultancy group needs to submit a list of clients for the past three years for completed and ongoing projects related to engagement.
3. Qualifications and CVs of members of the consultancy team should be part of the submission.

Qualifications of the Members of Study Team

1. Members of the study team shall have an advanced university degree in public health, nutrition or a related technical field with experience on nutrition management in emergencies and disasters.
2. Strong analytical and report writing skills
3. Excellent communication and facilitation skills
4. Fluency in English is required.

Scope of Work of the Consultancy Group

In general, the consulting group shall review the policy on nutrition management in emergencies along the following concerns:

1. Consistency with overall government policies and processes vis-à-vis disaster risk reduction and management
2. Consistency with international guidance on Disaster Risk Reduction and Management
3. Consistency with other related current global evidence and recommendations
4. Consistency with the WHO Building Blocks for Health Systems, as applicable
5. Structure and organization (section headings/sub headings)
6. Flow and appropriateness (language, tone, cultural sensitivity, clarity)
7. Feasibility and applicability in field / sub-national context
8. Others, as may be suggested by the consultancy group

Specific activities to be undertaken are as follows:

1. Conduct of a desk review of relevant documents, e.g. international guidelines, highlights of meetings of the National Nutrition Cluster and local clusters of areas affected by major disasters, documentation report of workshops conducted, e.g. Post-Incident Evaluation for Typhoon Pablo, related survey or special study reports at the national level, legislations and administrative issuances on disaster risk reduction and management. The desk review will identify initially the items in the policy that are no longer relevant and should be updated, or items that could be deleted or modified, or items that should be added.
2. Conduct of key informant interviews, covering key officials and staff who played a crucial role in nutrition prevention and mitigation, preparedness, response, and recovery and rehabilitation of major disasters and emergencies at national and local levels. These include members of the National Nutrition Cluster, the Regional Nutrition Cluster, and local nutrition clusters. The interviews should surface how nutrition in emergencies is planned, implemented, coordinated, monitored, and evaluated at different levels and in consideration of the cluster system in disaster risk reduction and management. Thus, the interviews should surface what activities are undertaken in connection with nutrition in emergencies at the mitigation, preparedness, response, recovery and rehabilitation phases. These interviews should also explore the extent to which the provisions of the policy guide are known to the interviewees, and are applied, extent of coordination with other clusters, the level of competency of those who are involved in nutrition in emergencies, and recommendations to improve the effectiveness and efficiency of efforts at various phases. Conduct of focus group discussions (FGD) *among those affected* (those who stayed in evacuation centers including those who were pregnant or had small children at the time of the disaster) or beneficiaries of CMAM (community-based management of acute malnutrition) program implemented in relation to an event, among others.

The local social welfare and development officer will be requested to help in identifying FGD participants.

The discussion could focus on experiences in the evacuation center, e.g. What kind of nutrition assessment was conducted in their area? What was used as a separate space for pregnant or lactating women? How did they find the separate space? What are their thoughts on the no-milk donation of government? What were their experiences relative to receiving food packs? How did they receive the MNP and vitamin A capsules? What were their positive and negative experiences in the in-patient treatment program or out-patient program for managing acute malnutrition? What nutrition and related services were received after leaving the evacuation center? Recommendations for improved nutrition services?

Target areas for the FGDs are listed in Table 1. These areas either experienced a recent disaster- or emergency-related event or are at risk to such events. These areas may also be used for key informant interviews at sub-national levels.

- 20.1. The Consultant may modify its bid after it has been submitted; provided that the modification is received by the Procuring Entity prior to the deadline prescribed for submission and receipt of bids. E. Evaluation and Comparison of Bids

21. Opening and Preliminary Examination of Bids

- 21.1 Only bids from short listed bidders shall be opened and considered for award of contract. These shortlisted bidders, whether single entities or JVs, should confirm in their Technical Proposal Submission Form that the information contained in the submitted eligibility documents remains correct as of the date of bid submission.
- 21.2 The BAC shall open the bids immediately after the deadline for the submission and receipt of bids in public, as specified in the **BDS**. In case the bids cannot be opened as scheduled due to justifiable reasons, the BAC shall take custody of the bids submitted and reschedule the opening on the next working day or at the soonest possible time through the issuance of a Bulletin to be posted at the PhilGEPS website and the website of the Procuring Entity concerned.
- 21.3 To determine each bidder's compliance with the documents prescribed in **ITB** Clause 10, the BAC shall open the first envelope (Technical Proposal) and check the submitted documents of each bidder in accordance with ITB Clause 10.2 to ascertain if they are all present, using a non-discretionary "pass/fail" criterion. If a bidder submits the required document, it shall be rated "passed" for that particular requirement. In this regard, bids that fail to include any requirement or are incomplete or patently insufficient shall be considered as "failed". Otherwise, the BAC shall rate the said first bid envelope as "passed".
- 21.4 Letters of withdrawal shall be read out and recorded during bid opening, and the envelope containing the corresponding withdrawn bid shall be returned to the Consultant unopened
- 21.5 All members of the BAC who are present during bid opening shall initial every page of the original copies of all bids received and opened.
- 21.6 All technical envelopes shall be resealed. Those rated "passed" shall be secured for the detailed technical bid evaluation, while those rated "failed" will be secured for purposes of possible filing of a request for reconsideration unless the bidder waives its right to file a request for reconsideration, in which case, the envelope shall be returned to the bidder immediately.

- 21.7 The Procuring Entity shall prepare the minutes of the proceedings of the bid opening that shall include, as a minimum: (a) names of Bidders, their bid price (per lot, if applicable, and/or including discount, if any), bid security, findings of preliminary examination, and whether there is a withdrawal or modification; and (b) attendance sheet. The BAC members shall sign the abstract of bids as read.

22. Process to be Confidential

- 22.1 Members of the BAC, including its staff and personnel, as well as its Secretariat and TWG, are prohibited from making or accepting any kind of communication with any Consultant regarding the evaluation of their bids until the approval by the HoPE of the ranking of shortlisted Consultants, unless otherwise allowed in the **BDS** or in the case of **ITB** Clause 23.
- 22.2 Any effort by a bidder to influence the Procuring Entity in the Procuring Entity's decision in respect of bid evaluation, bid comparison or contract award will result in the rejection of the Consultant's bid.

23. Clarification of Bids

To assist in the evaluation, comparison and post-qualification of the bids, the Procuring Entity may ask in writing any Consultant for a clarification of its bid. All responses to requests for clarification shall be in writing. Any clarification submitted by a Consultant in respect to its bid and that is not in response to a request by the Procuring Entity shall not be considered.

24. Bid Evaluation

- 24.1 For the evaluation of bids, numerical ratings shall be used. In order to eliminate bias in evaluating the Bids, it is recommended that the highest and lowest scores for each Consultant for each criterion shall not be considered in determining the average scores of the Consultants, except when the evaluation is conducted in a collegial manner.
- 24.2 For complex or unique undertakings, such as those involving new concepts/technology or financial advisory services, participating short listed consultants may be required, at the option of the Procuring Entity concerned, to make an oral presentation to be presented by each Consultant, or its nominated Project Manager or head, in case of consulting firms, within fifteen (15) calendar days after the deadline for submission of Technical Proposals.
- 24.3 The entire evaluation process, including the submission of the results thereof to the HoPE for approval, shall be completed in not more than twenty-one (21) calendar days after the deadline for receipt of bids. The bid with the highest rank shall be identified as the Highest Rated Bid. The HoPE shall approve or

disapprove the recommendations of the BAC within two (2) calendar days after receipt of the results of the evaluation from the BAC.

- 24.4 All participating shortlisted consultants shall be furnished the results (ranking and total scores only) of the evaluation after the approval by the HoPE of the ranking. Said results shall also be posted in the PhilGEPS and the website of the Procuring Entity, if available, for a period of not less than seven (7) calendar days.

25 Evaluation of Technical Proposals

- 25.1 The BAC shall then conduct a detailed evaluation of technical bids following the procedures specified in the **BDS** depending on the evaluation procedure identified in the Request for Expression of Interest and **ITB** Clause 1.1.
- 25.2 The BAC evaluates the Technical Proposals on the basis of their compliance with the requirements under **ITB** Clause 10 and responsiveness to the TOR using the following criteria:
- (a) Quality of personnel to be assigned to the Project which covers suitability of key staff to perform the duties for the Project and general qualifications and competence including education and training of the key staff;
 - (b) Experience and capability of the Consultant which include records of previous engagement and quality of performance in similar and in other projects; relationship with previous and current clients; and, overall work commitments, geographical distribution of current/impending projects and attention to be given by the consultant. The suitability of the Consultant to the Project shall consider both the overall experiences of the firm and the individual experiences of the principal and key staff including the times when employed by other consultants; and
 - (c) Plan of approach and methodology with emphasis on the clarity, feasibility, innovativeness and comprehensiveness of the plan approach, and the quality of interpretation of project problems, risks, and suggested solutions.
- 25.3 The BAC shall assign numerical weights and the minimum required technical score to each of the above criteria which shall be indicated in the **BDS**. A Bid shall be rejected at this stage if it does not respond to important aspects of the TOR or if it fails to achieve the minimum Technical Score (St) indicated in the **BDS**.
- 25.4 Technical Proposals shall not be considered for evaluation in any of the following cases:
- (a) late submission, *i.e.*, after the deadline set in the **ITB** Clause 18;
 - (b) failure to submit any of the technical requirements provided under this **ITB** and TOR;

- (d) the Technical Proposal included any cost of the services.

26 Opening and Evaluation of Financial Proposals

- 26.1 Financial Proposals shall be opened on the date indicated in the **BDS**.
- 26.2 The Financial Proposals opened shall be evaluated based on the evaluation procedure indicated in **ITB** Clause 1.1 using the corresponding procedure provided in the **BDS**.

27 Negotiations

 - (c) Consideration of appropriateness of qualifications and pertinent compensation, number of man-months and the personnel to be assigned to the job, taking note of over-qualified personnel to be commensurate with the compensation of personnel with the appropriate qualifications, number of man-months and schedule of activities (manning schedule);
 - (d) Discussion on the services, facilities and data, if any, to be provided by Procuring Entity concerned;
 - (e) Unless otherwise indicated in the **BDS**, discussion on the Financial Proposal submitted by the Consultant; and
 - (f) Provisions of the contract.
- 27.3 Having selected the Consultant on the basis of, among other things, an evaluation of the proposed key professional staff, the Procuring Entity expects to negotiate a contract on the basis of the experts named in the bid. Before contract negotiations, the Procuring Entity shall require assurances that the experts shall be actually available. The Procuring Entity shall not consider substitutions during contract negotiations except for justifiable reason as may be determined by the Procuring Entity, such as illness, death, or resignation, unless both parties agree that undue delay in the selection process makes such substitution unavoidable or that such changes are critical to meet the objectives of the Project. If this is not the case and if it is established that key staff were

offered in the bid without confirming their availability, the Consultant may be disqualified. Once the contract has been awarded, no replacement shall be allowed until after fifty percent (50%) of the personnel's man-months have been served, except for justifiable reasons as may be determined by the Procuring Entity. Violators shall be fined an amount equal to the refund of the replaced personnel's basic rate, which should be at least fifty percent (50%) of the total basic rate for the duration of the engagement.

- 27.4 Negotiations shall include a discussion of the technical proposal, the proposed methodology (work plan), staffing and any suggestions made by the Consultant to improve the TOR. The Procuring Entity and Consultant shall then work out the final TOR, staffing, and bar charts indicating activities, staff, periods in the field and in the home office, staff-months, logistics, and reporting. The agreed work plan and final TOR shall then be incorporated in Appendix I and form part of the contract. Special attention shall be paid to getting the most the Consultant can offer within the available budget and to clearly defining the inputs required from the Procuring Entity to ensure satisfactory implementation of the Project.
- 27.5 The financial negotiations shall include a clarification of the Consultant's tax liability in the Philippines, if any, and the manner in which it shall be reflected in the contract; and shall reflect the agreed technical modifications in the cost of the services. The negotiations shall conclude with a review of the draft form of the contract. To complete negotiations, the Procuring Entity and the Consultant shall initial the agreed contract. If negotiations fail, the Procuring Entity shall invite the Consultant whose Bid received the second highest score to negotiate a contract. If negotiations still fail, the Procuring Entity shall repeat the process for the next-in-rank Consultant until the negotiation is successfully completed.

28 Post Qualification

- 28.1 The BAC shall determine to its satisfaction whether the Consultant that is evaluated as having submitted the Highest Rated Bid (HRB) complies with and is responsive to all the requirements and conditions specified in the Eligibility Documents and **ITB** Clauses 10 and 11.
- 28.2 Within a non-extendible period of five (5) calendar days from receipt by the Consultant of the notice from the BAC that it submitted the Highest Rated Bid, the Consultant shall submit its latest income and business tax returns filed and paid through the BIR Electronic Filing and Payment System (EFPS) and other appropriate licenses and permits required by law and stated in the **BDS**.

Failure to submit any of the post-qualification requirements on time, or a finding against the veracity thereof, shall disqualify the bidder for award. Provided, in the event that a finding against the veracity of any of the documents submitted is made, it shall cause the forfeiture of the bid security in accordance with Section 69 of the IRR of RA 9184.

- 28.3 The determination shall be based upon an examination of the documentary evidence of the Consultant's qualifications submitted pursuant to **ITB** Clauses 10 and 11, as well as other information as the Procuring Entity deems necessary

and appropriate, using a non-discretionary “pass/fail” criterion, which shall be completed within a period of twelve (12) calendar days.

- 28.4 If the BAC determines that the Consultant with the Highest Rated Bid passes all the criteria for post-qualification, it shall declare the said bid as the Consultant with the HRRB, and recommend to the HoPE the award of contract to the said Consultant at its submitted price or its calculated bid price, whichever is lower, subject to **ITB** Clause 30.3.
- 28.5 A negative determination shall result in rejection of the Consultant’s bid, in which event the BAC shall proceed to the next Highest Rated Bid with a fresh period to make a similar determination of that Consultant’s capabilities to perform satisfactorily. If the second Consultant, however, fails the post qualification, the procedure for post qualification shall be repeated for the Consultant with the next Highest Rated Bid, and so on until the HRRB is determined for recommendation of contract award.
- 28.6 Within a period not exceeding fifteen (15) calendar days from the determination by the BAC of the HRRB and the recommendation to award the contract, the HoPE or his duly authorized representative shall approve or disapprove the said recommendation.
- 28.7 In the event of disapproval, which shall be based on valid, reasonable, and justifiable grounds as provided for under Section 41 of the IRR of RA 9184, the HoPE shall notify the BAC and the Consultant in writing of such decision and the grounds for it. When applicable, the BAC shall conduct negotiations, and if successful, post-qualification of the Consultant with the next Highest Rated Bid. A request for reconsideration may be filed by the bidder with the HoPE in accordance with Section 37.1.3 of the IRR of RA 9184.

29 Reservation Clause

- 29.1 Notwithstanding the eligibility, short listing, or post-qualification of a Consultant, the Procuring Entity concerned reserves the right to review its qualifications at any stage of the procurement process if it has reasonable grounds to believe that a misrepresentation has been made by the said Consultant, or that there has been a change in the Consultant’s capability to undertake this Project from the time it submitted its eligibility requirements. Should such review uncover any misrepresentation made in the eligibility and bidding requirements, statements or documents, or any changes in the situation of the Consultant which will affect its capability to undertake the project so that it fails the preset eligibility or bid evaluation criteria, the Procuring Entity shall consider the said Consultant as ineligible and shall disqualify it from submitting a bid or from obtaining an award or contract.
- 29.2 Based on the following grounds, the Procuring Entity reserves the right to reject any and all bids, declare a failure of bidding at any time prior to the contract award, or not to award the contract, without thereby incurring any liability, and make no assurance that a contract shall be entered into as a result of the bidding:

- (a) If there is *prima facie* evidence of collusion between appropriate public officers or employees of the Procuring Entity, or between the BAC and any of the bidders, or if the collusion is between or among the bidders themselves, or between a bidder and a third party, including any act which restricts, suppresses or nullifies or tends to restrict, suppress or nullify competition;
- (b) If the Procuring Entity's BAC is found to have failed in following the prescribed bidding procedures; or
- (c) For any justifiable and reasonable ground where the award of the contract will not redound to the benefit of the GoP as follows:
 - (i) If the physical and economic conditions have significantly changed so as to render the project no longer economically, financially or technically feasible as determined by the HoPE;
 - (ii) If the project is no longer necessary as determined by the HoPE; and
 - (iii) If the source of funds for the project has been withheld or reduced through no fault of the Procuring Entity.

29.3 In addition, the Procuring Entity may likewise declare a failure of bidding when:

- (a) No bids are received;
- (b) All prospective bidders are declared ineligible;
- (c) All bids fail to comply with all the bid requirements or there is no successful negotiation, or fail post-qualification; or
- (d) The bidder with the HRRB refuses, without justifiable cause to accept the award of contract, and no award is made in accordance with Section 40 of the IRR of RA 9184.

F. Award of Contract

30. Contract Award

- 30.1 Subject to **ITB** Clause 28, the HoPE or its authorized representative shall award the contract to the Bidder whose bid has been determined to be the HRRB.
- 30.2 Prior to the expiration of the period of bid validity, the Procuring Entity shall notify the successful Consultant in writing that its bid has been accepted, through a Notice of Award duly received by the Consultant or its authorized representative personally or by registered mail or electronically, receipt of which must be confirmed in writing within two (2) days by the Consultant with the HRRB and submitted personally or sent by registered mail or electronically to the Procuring Entity.

30.3 Notwithstanding the issuance of the Notice of Award, award of contract shall be subject to the following conditions:

- (a) Submission of the following documents within the (10) calendar days from receipt of the Notice of Award:
 - (i) Valid JVA, if applicable;
 - (ii) In the case of procurement by a Philippine Foreign Service Office or Post, the PhilGEPS Registration Number of the winning foreign consultant; and/or
 - (iii) SEC Certificate of Registration of the foreign consulting firm, and/or the authorization or license issued by the appropriate GoP professional regulatory body of the foreign professionals engaging in the practice of regulated professions and allied professions, where applicable.
- (b) Posting of the performance security in accordance with **ITB** Clause 32;
- (c) Signing of the contract as provided in **ITB** Clause 31; and
- (d) Approval by higher authority, if required, as provided in Section 37.3 of the IRR of RA 9184.

31. Signing of the Contract

31.1 At the same time as the Procuring Entity notifies the successful Bidder that its bid has been accepted, the Procuring Entity shall send the Contract Form to the Bidder, which contract has been provided in the Bidding Documents, incorporating therein all agreements between the parties.

31.2 Within ten (10) calendar days from receipt of the Notice of Award, the successful Bidder shall post the required performance security and sign and date the contract and return it to the Procuring Entity.

31.3 The Procuring Entity shall enter into contract with the successful Bidder within the same ten (10) calendar day period provided that all the documentary requirements are complied with.

31.4 The following documents shall form part of the contract:

- (1) Contract Agreement;
- (2) Bidding Documents;
- (3) Winning bidder's bid, including the Technical and Financial Proposals, and all other documents/statements submitted (*e.g.*, bidder's response to request for clarifications on the bid), including corrections to the bid, if any, resulting from the Procuring Entity's bid evaluation;

- (4) Performance Security;
- (5) Notice of Award of Contract; and
- (6) Other contract documents that may be required by existing laws and/or specified in the **BDS**.

32. Performance Security

- 32.1 Unless otherwise provided in the **BDS**, to guarantee the faithful performance by the winning Consultant of its obligations under the contract, it shall post a performance security within a maximum period of ten (10) calendar days from the receipt of the Notice of Award from the Procuring Entity and in no case later than the signing of the contract.
- 32.2 The performance security shall be denominated in Philippine Pesos and posted in favor of the Procuring Entity in an amount not less than the percentage of the total contract price in accordance with the following schedule:

Form of Performance Security	Amount of Performance Security (Not less than the Percentage of the Total Contract Price)
(a) Cash or cashier's/manager's check issued by a Universal or Commercial Bank;	Five percent (5%)
(b) Bank draft/guarantee or irrevocable letter of credit issued by a Universal or Commercial Bank: Provided, however, that it shall be confirmed or authenticated by a Universal or Commercial Bank, if issued by a foreign bank; and/or	
(c) Surety bond callable upon demand issued by a surety or insurance company duly certified by the Insurance Commission as authorized to issue such security.	Thirty percent (30%)

- 32.3 Failure of the successful Consultant to comply with the above-mentioned requirement shall constitute sufficient ground for the annulment of the award and forfeiture of the bid security, in which event the Procuring Entity shall have a fresh period to initiate negotiation and if successful, complete post-

qualification of the second Highest Rated Bid. The procedure shall be repeated until the HRRB is identified and selected for recommendation of contract award. However, if no Consultant had a successful negotiation or passed post-qualification, the BAC shall declare the bidding a failure and conduct a re-bidding with re-advertisement, if necessary.

33. Notice to Proceed

33.1 Within seven (7) calendar days from the date of approval of the contract by the appropriate government approving authority, the Procuring Entity shall issue the Notice to Proceed together with copies of the approved contract to the successful Consultant. All notices called for by the terms of the contract shall be effective only at the time of receipt thereof by the successful Consultant.

33.2 The contract effectivity date shall be the date of contract signing. The Consultant shall commence performance of its obligations only upon receipt of the Notice to Proceed.

46. Specifications and Designs

46.1 The Consultant shall prepare all specifications and designs using the metric system and shall embody the best design criteria applicable to Philippine conditions. The Consultant shall specify standards which are accepted and well-known among industrial nations.

46.2 The Consultant shall ensure that the specifications and designs and all documentation relating to procurement of goods and services for this Contract are prepared on an impartial basis so as to promote national and international competitive bidding.

47. Reports

The Consultant shall submit to the Procuring Entity the reports, deliverables and documents in English, in the form, in the numbers, and within the time periods set forth in Appendix II.

48. Assistance by the Procuring Entity on Government Requirements

48.1 The Procuring Entity may assist the Consultant, Subconsultants, and Personnel in the payment of such taxes, duties, fees and other impositions as may be levied under the Applicable Law by providing information on the preparation of necessary documents for payment thereof.

48.2 The Procuring Entity shall use its best efforts to ensure that the Government shall:

- (a) provide the Consultant, Subconsultants, and Personnel with work permits and such other documents as shall be necessary to enable the Consultant, Subconsultants, or Personnel to perform the Services;
- (b) arrange for the foreign Personnel and, if appropriate, their eligible dependents to be provided promptly with all necessary entry and exit visas, residence permits, and any other documents required for their stay in the Philippines for the duration of the Contract;

- (c) facilitate prompt clearance through customs of any property required for the Services and of the necessary personal effects of the foreign Personnel and their eligible dependents;
- (d) issue to officials, agents and representatives of the Government all such instructions as may be necessary or appropriate for the prompt and effective implementation of the Services; and
- (e) grant to foreign Consultant, any foreign Subconsultant and the Personnel of either of them the privilege, pursuant to the Applicable Law, of bringing into the Government's country reasonable amounts of foreign currency for purposes of the Services or for the personal use of the foreign Personnel and their dependents.

49. Access to Land

The Procuring Entity warrants that the Consultant shall have, free of charge, unimpeded access to all lands in the Philippines in respect of which access is required for the performance of the Services. The Procuring Entity shall be responsible for any damage to such land or any property thereon resulting from such access and shall indemnify the Consultant and each of the Personnel in respect of liability for any such damage, unless such damage is caused by the default or negligence of the Consultant or any Subconsultant or the Personnel of either of them.

50. Subcontract

- 50.1 Subcontracting of any portion of the Consulting Services, if allowed in the **BDS**, does not relieve the Consultant of any liability or obligation under this Contract. The Consultant will be responsible for the acts, defaults, and negligence of any subconsultant, its agents, servants or workmen as fully as if these were the Consultant's own acts, defaults, or negligence, or those of its agents, servants or workmen.
- 50.2 Subconsultants disclosed and identified during the bidding may be changed during the implementation of this Contract, subject to compliance with the required qualifications and the approval of the Procuring Entity.

51. Accounting, Inspection and Auditing

- 51.1 The Consultant shall:
 - (a) keep accurate and systematic accounts and records in respect of the Services hereunder, in accordance with internationally accepted accounting principles and in such form and detail as shall clearly identify all relevant time changes and costs, and the bases thereof;
 - (b) permit the Procuring Entity or its designated representative and or the designated representative of the Funding Source at least once for short-term Contracts, and annually in the case of long-term Contracts, and up to one year from the expiration or termination of this Contract, to inspect

the same and make copies thereof as well as to have them audited by auditors appointed by the Procuring Entity; and

- (c) permit the Funding Source to inspect the Consultant's accounts and records relating to the performance of the Consultant and to have them audited by auditors approved by the Funding Source, if so required.

51.2 The basic purpose of this audit is to verify payments under this Contract and, in this process, to also verify representations made by the Consultant in relation to this Contract. The Consultant shall cooperate with and assist the Procuring Entity and its authorized representatives in making such audit. In the event the audit discloses that the Consultant has overcharged the Procuring Entity, the Consultant shall immediately reimburse the Procuring Entity an amount equivalent to the amount overpaid. If overpayment is a result of the Consultant having been engaged in what the Procuring Entity (or, as the case may be, the Funding Source) determines to constitute corrupt, fraudulent, or coercive practices, as defined in **GCC** Clause 27(e) and under the Applicable Law, the Procuring Entity shall, unless the Procuring Entity decides otherwise, terminate this Contract.

51.3 The determination that the Consultant has engaged in corrupt, fraudulent, coercive practices shall result in the Procuring Entity and/or the Funding Source seeking the imposition of the maximum administrative, civil and criminal penalties up to and including imprisonment.

52. Contract Cost

52.1 Except as may be otherwise agreed under **GCC** Clause 10, payments under this Contract shall not exceed the ceiling specified in the **SCC**. The Consultant shall notify the Procuring Entity as soon as cumulative charges incurred for the Services have reached eighty percent (80%) of this ceiling.

52.2 Unless otherwise specified in the **SCC**, the cost of the Services shall be payable in Philippine Pesos and shall be set forth in the Appendix IV attached to this Contract.

53. Remuneration and Reimbursable Expenditures

53.1 Payments of Services do not relieve the Consultant of any obligation hereunder.

53.2 Remuneration for the Personnel shall be determined on the basis of time actually spent by such Personnel in the performance of the Services including other additional factors indicated in the **SCC** after the date determined in accordance with **GCC** Clause 22, or such other date as the Parties shall agree in writing, including time for necessary travel via the most direct route, at the rates referred to, and subject to such additional provisions as are set forth, in the **SCC**.

53.3 Remuneration for periods of less than one month shall be calculated on an hourly basis for time spent in home office (the total of 176 hours per month shall apply) and on a calendar-day basis for time spent away from home office (1 day being equivalent to 1/30th of a month).

- 53.4 Reimbursable expenditures actually and reasonably incurred by the Consultants in the performance of the Services are provided in the **SCC**.
- 53.5 Billings and payments in respect of the Services shall be made as follows:
- (a) The Procuring Entity shall cause to be paid to the Consultant an advance payment as specified in the **SCC**, and as otherwise set forth below. The advance payment shall be due after the Consultant provides an irrevocable standby letter of credit in favor of the Procuring Entity issued by an entity acceptable to the Procuring Entity in accordance with the requirements provided in the **SCC**.
 - (b) As soon as practicable and not later than fifteen (15) days after the end of each calendar month during the period of the Services, the Consultant shall submit to the Procuring Entity, in duplicate, itemized statements, accompanied by copies of receipted invoices, vouchers and other appropriate supporting materials, of the amounts payable pursuant to **GCC** Clauses 52.1 and 53 for such month. Separate monthly statements shall be submitted in respect of amounts payable in foreign currency and in local currency. Each separate monthly statement shall distinguish that portion of the total eligible costs which pertains to remuneration from that portion which pertains to reimbursable expenditures.
 - (c) The Procuring Entity shall cause the payment of the Consultant's monthly statements within sixty (60) days after the receipt by the Procuring Entity of such statements with supporting documents. Only such portion of a monthly statement that is not satisfactorily supported may be withheld from payment. Should any discrepancy be found to exist between actual payment and costs authorized to be incurred by the Consultant, the Procuring Entity may add or subtract the difference from any subsequent payments. Interest shall be paid for delayed payments following the rate provided in the **SCC**.

54. Final Payment

- 54.1 The final payment shall be made only after the final report and a final statement, identified as such, shall have been submitted by the Consultant and approved as satisfactory by the Procuring Entity. The Services shall be deemed completed and finally accepted by the Procuring Entity and the final report and final statement shall be deemed approved by the Procuring Entity as satisfactory ninety (90) calendar days after receipt of the final report and final statement by the Procuring Entity unless the Procuring Entity, within such ninety (90)-day period, gives written notice to the Consultant specifying in detail deficiencies in the Services, the final report or final statement. The Consultant shall thereupon promptly make any necessary corrections within a maximum period of ninety (90) calendar days, and upon completion of such corrections, the foregoing process shall be repeated.
- 54.2 Any amount which the Procuring Entity has paid or caused to be paid in accordance with this clause in excess of the amounts actually payable in accordance with the provisions of this Contract shall be reimbursed by the

Consultant to the Procuring Entity within thirty (30) days after receipt by the Consultant of notice thereof. Any such claim by the Procuring Entity for reimbursement must be made within twelve (12) calendar months after receipt by the Procuring Entity of a final report and a final statement approved by the Procuring Entity in accordance with the above.

55. Lump Sum Contracts

- 55.1 For Lump Sum Contracts when applicable, notwithstanding the terms of **GCC** Clauses 10, 18.1, 31(c), 41.3, 53.2, 53.3, 53.4, 53.5, and 54.1, the provisions contained hereunder shall apply.
- 55.2 Personnel - Any replacement approved by the Procuring Entity in accordance with **ITB** Clause 27.3 shall be provided by the Consultant at no additional cost.
- 55.3 Staffing Schedule - Should the rate of progress of the Services, or any part hereof, be at any time in the opinion of the Procuring Entity too slow to ensure that the Services are completed in accordance with the Staffing Schedule, the Procuring Entity shall so notify the Consultant in writing and the Consultant shall at its sole cost and expense, thereupon take such steps as necessary, subject to the Procuring Entity's approval, or as reasonably required by the Procuring Entity, to expedite progress so as to ensure that the Services are completed in accordance with the Staffing Schedule.
- 55.4 Final payment pursuant to the Payment Schedule in Appendices IV and V shall be made by the Procuring Entity after the final report has been submitted by the Consultant and approved by the Procuring Entity.
- 55.5 Termination - Upon the receipt or giving of any notice referred to in **GCC** Clause 29 and if the Consultant is not in default under this Contract and has partly or substantially performed its obligation under this Contract up to the date of termination and has taken immediate steps to bring the Services to a close in prompt and orderly manner, there shall be an equitable reduction in the maximum amount payable under this Contract to reflect the reduction in the Services, provided that in no event shall the Consultant receive less than his actual costs up to the effective date of the termination, plus a reasonable allowance for overhead and profit.
- 55.6 Unless otherwise provided in the **SCC**, no additional payment for variation order, if any, shall be allowed for this Contract.

56. Liquidated Damages for Delay

If the Consultant fails to deliver any or all of the Services within the period(s) specified in this Contract, the Procuring Entity shall, without prejudice to its other remedies under this Contract and under the Applicable Law, deduct from the contract price, as liquidated damages, a sum equivalent to one-tenth of one percent of the price of the unperformed portion of the Services for each day of delay based on the approved contract schedule up to a maximum deduction of ten percent (10%) of the contract price. Once the maximum is reached, the Procuring Entity may consider termination of this Contract pursuant to **GCC** Clause 27.

Section V. Special Conditions of Contract

Notes on the Special Conditions of Contract

Similar to the BDS in Section III, the Clauses in this Section are intended to assist the Procuring Entity in providing contract-specific information in relation to corresponding clauses in the GCC.

The provisions of Section V complement the GCC included in Section IV, specifying contractual requirements linked to the special circumstances of the Procuring Entity, the Procuring Entity's country, the sector, and the Services purchased. In preparing Section V, the following aspects should be checked:

Republic of the Philippines

NATIONAL NUTRITION COUNCIL

**Concept Paper for Updating the National Policy
on Nutrition Management in Emergencies and Disasters**

Background

NNC Governing Board Resolution No. 1, series of 2009 adopting the National Policy on Nutrition Management in Emergencies and Disasters was approved on 03 December 2009.

The policy covers the following concerns:

1. Scope, e.g. who should apply the guidelines
2. Objectives of the policy
3. Policy statements underlying the provisions of the guidelines
4. Implementing mechanisms covers range of processes that includes the following:
 - a. Coordination and networking
 - b. Planning
 - c. Capacity building
 - d. Organizational support
 - e. Social mobilization
 - f. Advocacy
 - g. Logistics management
 - h. Surveillance, monitoring and evaluation
 - i. Service delivery
5. Institutional management that lays out the roles of various stakeholders

Since the policy was adopted in 2009, the country has experienced severe disasters, specifically, Typhoons Ondoy (2009), Sendong (2010), Pablo (2011), Zamboanga crisis (2013), Bohol earthquake (2013), Yolanda (2013), and Marawi City Siege (2017), through which more lessons have been learned along nutrition management in emergencies.

These disasters have disrupted the lives of the populations affected, putting them at risk of developing various undesirable health and nutrition-related conditions, including those that threaten the nutritional status of the individuals especially the most vulnerable groups: infants, children, pregnant women and breastfeeding mothers, older persons, persons with disabilities, and people living with debilitating conditions.

On another plane, there have been changes in the overall disaster risk reduction and management system. These include the designation of the NNC as chair of the Nutrition Cluster, and the adoption of the National Disaster Response Plan that lays out the response protocols of all response clusters.

Concept Paper for Updating the National Policy
on Nutrition Management in Emergencies and Disasters

Thus, it is very appropriate and essential to update the policy to further improve guidance for nutrition clusters at various levels and in the process, prevent a worsening of the nutrition situation.

This concept paper describes the process for updating the policy and for disseminating its updated version.

General Objective. To update the National Policy on Nutrition Management in Emergencies and Disasters

Specific Objectives

1. To determine the usefulness and relevance of the policy
2. To determine provisions of the policy that should be deleted or modified as well as those that should be added
3. To determine how the updated policy will be disseminated

Expected output

1. A report on the assessment of the policy
2. Draft Revised Policy on Nutrition Management in Emergencies and Disasters

Methodology

1. A consultancy group will be hired to conduct the review. Moreover, the hired consultants will be in close coordination with the National Nutrition Cluster particularly the Cluster's SCG or Strategic Core Group headed by the Office of Executive Director of National Nutrition Council, and composed of chairpersons of the different working groups (NNC-Nutrition Surveillance Division as chair of the Assessment and Monitoring Working Group, DOH-Disease Prevention and Control Bureau as chair for both CMAM and IYCF Working Groups, DOH-Health Promotion and Communication Service as chair of Advocacy and Communications Working Group), DOH-Health Emergency Management Bureau, UNICEF, and WFP. A representative from PhilCAN, Office of Civil Defense (OCD) and DSWD will be invited to join the SCG.
2. The following points will be considered in the review
 - a. Consistency with overall government policies and processes vis-à-vis disaster risk reduction and management
 - b. Consistency with international guidance on Disaster Risk Reduction and Management
 - c. Consistency with other related current global evidence and recommendations

- d. Consistency with the WHO Building Blocks for Health Systems, as applicable
- e. Structure and organization (section headings/sub headings)
- f. Flow and appropriateness (language, tone, cultural sensitivity, clarity)
- g. Feasibility and applicability in field / sub-national context
- h. Others, as may be suggested by the consultancy group

2. The following methods will be used:

- a. **Desk review of available documents**, e.g. international guidelines, highlights of meetings of the National Nutrition Cluster and local clusters of areas affected by major disasters, documentation report of workshops conducted, e.g. Post-Incident Evaluation for Typhoon Pablo, related survey or special study reports at the national level, legislations and administrative issuances on disaster risk reduction and management. The desk review will identify initially the items in the policy that are no longer relevant and should be updated, or items that could be deleted or modified, or items that should be added. *Attachment 1* is a suggested tool for this purpose, but the consultancy group may use a different tool.
- b. **Key informant interview**, key informants include key officials and staff who played a crucial role in nutrition prevention and mitigation, preparedness, response, and recovery and rehabilitation of major disasters and emergencies at national and local levels. The interviews should surface what activities are undertaken in connection with nutrition in emergencies at the mitigation, preparedness, response, recovery and rehabilitation phases. These interviews should also explore the extent to which the provisions of the policy guide are known to the interviewees, and are applied, extent of coordination with other clusters, the level of competency of those who are involved in nutrition in emergencies, and recommendations to improve the effectiveness and efficiency of efforts at various phases.
- c. **Focus group discussions FGDs among those affected** (those who stayed in evacuation centers including those who were pregnant or had small children at the time of the disaster) or beneficiaries of CMAM (community-based management of acute malnutrition) program implemented in relation to an event, among others.

The local social welfare and development officer will be requested to help in identifying FGD participants.

The discussion will focus on experiences in the evacuation center, e.g. What kind of nutrition assessment was conducted in their area? What was used as a separate space for pregnant or lactating women? How did they find the separate space? What are their thoughts on the no-milk

donation of government? What were their experiences relative to receiving food packs? How did they receive the MNP and vitamin A capsules? What were their positive and negative experiences in the in-patient treatment program or out-patient program for managing acute malnutrition? What nutrition and related services were received after leaving the evacuation? Recommendations for improved nutrition services?

The focus group discussions should explore experiences in emergencies in the context of nutrition services, e.g. what nutrition services were received in the response, recovery, and rehabilitation phases, the level of satisfaction to these services, and suggestions to improve the quality of services.

Target areas for the FGDs are listed in Table 1. These areas either experienced a recent disaster- or emergency-related event or are at risk to such events. These areas may also be used for key informant interviews at sub-national levels.

Table 1. Proposed study areas

Region	Province	City/Municipality
II	Cagayan	Baggao, Lasam, Gattaran
CALABARZON	Laguna	Mabitac, Pangil, Famy, Sta. Cruz

VIII	Leyte	Palo, Leyte and Tacloban City

ARMM	Lanao del Sur	Marawi City

- d. **Workshop to review and revise the policy** (See Attachment 2 for the proposed concept paper for the workshop.) The final design of the consultation workshop will be worked out with the consultancy group.
 - e. **Post-workshop meetings to finalize the draft of updated policy**
3. Results of the review as well as draft updated policy will be vetted by the Nutrition Cluster (as the first layer of review for both the initial draft and the succeeding drafts) and the NNC Technical Committee.
 4. The NNC Governing Board will be the final approving body. While there will be presentations in meetings, interim drafts will also be emailed to the members of the Nutrition Cluster and NNC Technical Committee for further comments.

Concept Paper for Updating the National Policy
on Nutrition Management in Emergencies and Disasters

Dissemination

Dissemination of the final updated policy will involve the following:

1. Posting in the NNC website
2. Printing of 2,000 copies of the updated policy for distribution to member agencies of the Nutrition Cluster, NNC Technical Committee, and NNC Governing Board; the OCD, and all provinces, cities, and municipalities
3. Presentation and discussions in meetings of various groups including the NEDA Social Development Committee at national and regional levels, regional development councils, local nutrition committees, and regional and national associations of nutrition action officers, district/city nutrition program coordinators, and barangay nutrition scholars

 - i. Service delivery
5. Institutional management that lays out the roles of various stakeholders

Since the policy was adopted in 2009, the country has experienced severe disasters, specifically, Typhoons Ondoy (2009), Sendong (2010), Pablo (2011), Zamboanga crisis (2013), Bohol earthquake (2013), Yolanda (2013), and Marawi City Siege (2017), through which more lessons have been learned along nutrition management in emergencies.

These disasters have disrupted the lives of the populations affected, putting them at risk of developing various undesirable health and nutrition-related conditions, including those that threaten the nutritional status of the individuals especially the most vulnerable groups: infants, children, pregnant women and breastfeeding mothers, older persons, persons with disabilities, and people living with debilitating conditions.

On another plane, there have been changes in the overall disaster risk reduction and management system. These include the designation of the NNC as chair of the Nutrition Cluster, and the adoption of the National Disaster Response Plan that lays out the response protocols of all response clusters.

**Terms of Reference for the Engagement of Consultancy Services for Updating of the
National Policy on Nutrition Management in Emergencies and Disasters**

Background

NNC Governing Board Resolution No. 1, series of 2009 adopting the National Policy on Nutrition Management in Emergencies and Disasters was approved on 03 December 2009.

The policy covers the following concerns:

1. Scope, e.g. who should apply the guidelines
2. Objectives of the policy
3. Policy statements underlying the provisions of the guidelines
4. Implementing mechanisms covers range of processes that includes the following:
 - a. Coordination and networking
 - b. Planning
 - c. Capacity building
 - d. Organizational support
 - e. Social mobilization
 - f. Advocacy
 - g. Logistics management
 - h. Surveillance, monitoring and evaluation
 - i. Service delivery
5. Institutional management that lays out the roles of various stakeholders

Since the policy was adopted in 2009, the country has experienced severe disasters, specifically, Typhoons Ondoy (2009), Sendong (2010), Pablo (2011), Zamboanga crisis (2013), Bohol earthquake (2013), Yolanda (2013), and Marawi City Siege (2017), through which more lessons have been learned along nutrition management in emergencies.

These disasters have disrupted the lives of the populations affected, putting them at risk of developing various undesirable health and nutrition-related conditions, including those that threaten the nutritional status of the individuals especially the most vulnerable groups: infants, children, pregnant women and breastfeeding mothers, older persons, persons with disabilities, and people living with debilitating conditions.

On another plane, there have been changes in the overall disaster risk reduction and management system. These include the designation of the NNC as chair of the Nutrition

Cluster, and the adoption of the National Disaster Response Plan that lays out the response protocols of all response clusters.

Thus, it is very appropriate and essential to update the policy to further improve guidance for nutrition clusters at various levels and in the process, prevent a worsening of the nutrition situation.

~~This document outlines the terms of reference of the consulting group to be engaged in reviewing and updating the policy.~~

General Objective. To update the National Policy on Nutrition Management in Emergencies and Disasters

Specific Objectives

1. To determine the usefulness and relevance of the policy
2. To determine provisions of the policy that should be deleted or modified as well as those that should be added

Expected output

1. ~~A report on the assessment of the policy~~
2. Draft Revised Policy on Nutrition Management in Emergencies and Disasters

Qualifications of Contracted Consultancy Group

1. The contracted consultancy group shall have a track record of at least five years in the Philippines. It will need to demonstrate experiences related to nutrition management in emergencies and disasters, either as an organization or through the members of the consulting team.
2. The contracted consultancy group needs to submit a list of clients for the past three years for completed and ongoing projects related to engagement.
3. Qualifications and CVs of members of the consultancy team should be part of the submission.

Qualifications of the Members of Study Team

1. Members of the study team shall have an advanced university degree in public health, nutrition or a related technical field with experience on nutrition management in emergencies and disasters.
2. Strong analytical and report writing skills
3. Excellent communication and facilitation skills
4. Fluency in English is required.

Scope of Work of the Consultancy Group

In general, the consulting group shall review the policy on nutrition management in emergencies along the following concerns:

1. Consistency with overall government policies and processes vis-à-vis disaster risk reduction and management
2. Consistency with international guidance on Disaster Risk Reduction and Management
3. Consistency with other related current global evidence and recommendations
4. Consistency with the WHO Building Blocks for Health Systems, as applicable
5. Structure and organization (section headings/sub headings)
6. Flow and appropriateness (language, tone, cultural sensitivity, clarity)
7. Feasibility and applicability in field / sub-national context
8. Others, as may be suggested by the consultancy group

Specific activities to be undertaken are as follows:

1. Conduct of a desk review of relevant documents, e.g. international guidelines, highlights of meetings of the National Nutrition Cluster and local clusters of areas affected by major disasters, documentation report of workshops conducted, e.g. Post-Incident Evaluation for Typhoon Pablo, related survey or special study reports at the national level, legislations and administrative issuances on disaster risk reduction and management. The desk review will identify initially the items in the policy that are no longer relevant and should be updated, or items that could be deleted or modified, or items that should be added.
2. Conduct of key informant interviews, covering key officials and staff who played a crucial role in nutrition prevention and mitigation, preparedness, response, and recovery and rehabilitation of major disasters and emergencies at national and local levels. These include members of the National Nutrition Cluster, the Regional Nutrition Cluster, and local nutrition clusters. The interviews should surface how nutrition in emergencies is planned, implemented, coordinated, monitored, and evaluated at different levels and in consideration of the cluster system in disaster risk reduction and management. Thus, the interviews should surface what activities are undertaken in connection with nutrition in emergencies at the mitigation, preparedness, response, recovery and rehabilitation phases. These interviews should also explore the extent to which the provisions of the policy guide are known to the interviewees, and are applied, extent of coordination with other clusters, the level of competency of those who are involved in nutrition in emergencies, and recommendations to improve the effectiveness and efficiency of efforts at various phases. Conduct of focus group discussions (FGD) **among those affected** (those who stayed in evacuation centers including those who were pregnant or had small children at the time of the disaster) or beneficiaries of CMAM (community-based management of acute malnutrition) program implemented in relation to an event, among others.

The local social welfare and development officer will be requested to help in identifying FGD participants.

The discussion could focus on experiences in the evacuation center, e.g. What kind of nutrition assessment was conducted in their area? What was used as a separate space for pregnant or lactating women? How did they find the separate space? What are their thoughts on the no-milk donation of government? What were their experiences relative to receiving food packs? How did they receive the MNP and vitamin A capsules? What were their positive and negative experiences in the in-patient treatment program or out-patient program for managing acute malnutrition? What nutrition and related services were received after leaving the evacuation center? Recommendations for improved nutrition services?

Target areas for the FGDs are listed in Table 1. These areas either experienced a recent disaster- or emergency-related event or are at risk to such events. These areas may also be used for key informant interviews at sub-national levels.
